

# ITALIANS RETREATING—BRITISH CAPTURE MERKEM. U. S. Government Expenses for October Total a Billion Dollars.

**HARDSHIPS OF WAR.**  
Days of Luxuries are Over.

Surprises not Essential to the Conduct of Fighting to Suffer Most.

**THE DOUBLE FINCH.**  
WASHINGTON, Oct. 28.—The Government expenditure of \$1,000,000,000 is the record which the month of October has established at the Treasury Department. The total, which includes loans to the Allies, may exceed even this huge sum, possibly by \$100,000,000.

Thus far it stands at \$985,342,357, with yesterday's spending not included. For the twenty-three working days thus far, it shows average expenditures of approximately \$42,600,000 daily, or almost \$30,000 every minute of the day and night.

The increase in the daily expenditures is greater at the present time than it was a month ago, and is steadily growing. A two-billion-dollar month, officials assert, is not far off.

It may be reached, with the redemption of short-time treasury certificates—to be met out of Liberty Bond receipts by midwinter.

**THE TOTAL.**  
Expenditures for the fiscal year thus far have reached the total of \$2,446,559,744, of which \$1,770,700,000, more than half, is represented by loans to the Allies. These loans are repaid to the government by the borrowers, and therefore, do not represent actual expense to the American people.

October's huge volume of funds paid out is made up as follows:

For the army and navy, the Shipping Board, the Aircraft Production Board, the food administration, the maintenance of domestic governmental machinery and all other Federal government activities: \$295,228,280.

For interest on short-time certificates of indebtedness and interest on the public debt: \$1,458,798.

For maintenance of the Panama Canal: \$1,525,082.

For redemption of certificates of indebtedness issued in anticipation of Liberty Bond receipts of the second issue: \$1,123,246,562.

For bonds, interest-bearing notes and certificates retired: \$200.

For bonds, interest-bearing notes and certificates retired: \$200.

**Diabolical.**  
"TORMENT GAS" USED AGAINST ITALIANS.

AUSTRO-GERMANS COMPEL THE ENEMY TO UNMASK.

Protection Once Removed, New German Invention, that Causes Terrible Itching of Soldiers' Faces, Generates Vapors that Overcome Victims.

**[BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.]**  
LONDON, Oct. 28.—A dispatch to the Times from the Italian front says one feature of the Austro-German attacks have been the use of gas on a large scale. It is a type of gas which causes a terrible itching on the soldiers' faces, even through their masks. The hope apparently being that they will remove their masks and then succumb to the gas. Details of this new "torment" gas, as it is called, are not yet available. The most revealing statement of the situation is the quiet confidence of Gen. Cadorna.

The editorial comments on the German claims in Italy are so far meager. The Times says:

"We must wait further developments before definitely measuring the full significance of the new stroke, but it must be said without delay that an extensive invasion of this kind would affect the whole Allied cause."

Ward Price, in a dispatch from the Italian front on Wednesday, says this new battle of Italy is going to be one of those terrible crimes of war when literally millions of men are strained to the limit of exhaustion for a decision whose effects will reach far beyond the battlefield and will modify the whole course of the world.

He says: "The German supreme purpose probably is to deal the Italian army a terrible blow that will put out of action for the rest of the war and so arouse a decided demand for peace throughout the country. If this is so, he adds, Germany has made one more great error in national psychology, for though the Italian army may be forced to bend, it will not break, and the effect of the onslaught will be to buoy up all hearts with the hope that when the enemy's desperate effort is exhausted, the Italians, with the elasticity which is the essence of their temperament, will be able to retaliate in full."

A dispatch to the Daily News from Rotterdam says there is reason to believe that the plans of the Central Empires against Italy are of great magnitude. It is stated that Tolmino and Pizzaro are not the principal attacking points, it being the intention to direct the main offensive on the Tyrol and Carnia fronts, where the Germans have strongly reinforced the Austrian armies under command of Gen. Conrad von Hotzendorf.

**FRENCH CO-OPERATION WITH THE ITALIANS.**  
**[BY ATLANTIC CABLE AND A. P.]**  
PARIS, Oct. 28.—The Cabinet met this evening to determine upon co-operation of the Allies on the Italian front. President Poincaré presided.

**ITALIAN SOLDIERS FACE HEAVY ODDS.**  
**[BY ATLANTIC CABLE AND A. P.]**  
LONDON, Oct. 28.—It is estimated in an Exchange Telegraph dispatch from Rome that the Italians are opposed on the front of the Austro-German attack by forces four times their number.

**SHOOT AT RUSSIANS FRIENDLY TO HUNS.**  
**[BY ATLANTIC CABLE AND A. P.]**  
PETROGRAD, Oct. 28.—Russian soldiers who fraternized with Germans were fired on by Russian artillery yesterday, says today's official communication.

On all fronts the situation is unchanged, the announcement says.

**PRICE 2 1/2 CENTS** Delivered at the rate of 100 copies per 1000. At the rate of 100 copies per 1000. At the rate of 100 copies per 1000.

**HOW THE AMERICAN SOLDIERS ENTERED FIRST LINE TRENCHES.**  
Vis-a-vis with the Germans is not So Perilous as the Folks Back Home have Imagined—Touch of Dangerous Bravado Develops.

**[BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.]**  
WITH FIRST AMERICAN SOLDIERS IN THE TRENCHES, AMERICAN EXPEDITIONARY FORCES IN FRANCE, Oct. 23. (Delayed by Censor.)—American infantrymen and German regiments face one another tonight in the first-line trenches of the western front.

Drab-colored soft ground, blotched with rust red expanses of wire entanglements separate the hostile lines along the historic sector in which the American fighting men are located. In supporting positions near the rear American artillerymen with guns are registered on every yard of the immediate terrain where the French and Germans have been in death holds for two years.

There is no moon, and the few clouds that veiled the stars seem to accentuate the blackness of the night. Here in the darkness and mud, on the slippery firing steps of the trench walls and in damp dugouts, the young, red-blooded Americans are mingling for the first time with the veteran troops of France.

**RAIN.**  
A mean drizzle of rain is falling, but it feels good on the red American cheeks hot with excitement. The damp wetness of the air impregnates all. It touches them with the roominess of the event. Their spirits are as high as the mud is deep, and history is chiseling tonight's date in the book of ages.

Occasionally a shell whizzes through the soft atmosphere, seeming to lead to an unseen end. It terminates with a sudden thump in the spongy, water-soaked mud behind us. As answering missile of steel whines its way back across the void into the populated invisibility in front of us.

A French comrade, with a quaint dialect, is telling us the difference between shells. "Now, that one that started with a bark behind us and whined overhead is 'depart' for Germany. Now, this one which whines first and ends with a distant grut like a strong wall is 'arrive.' (It arrived from Germany.)"

**CIGARETTE SMOKERS.**  
Our men are smoking dozens of cigarettes, lighting a fresh one from the hot butt. It is an appetite that comes with the realization of a long-deferred hope. It is a tension that comes with the final achievement of its objective. It is a nervousness that nevertheless youth suffers from inactivity.

We slosh back and forth through the mud along the narrow confines of a trench. Or-

ders are against movement, but immobility is unbearable. Men squeeze past one another in the narrow traverses, wet slickers rustle, and equipment, principally French and English gas masks, hanging by both sides, clash and entangle. At times a steel helmet falls from some unaccustomed American head, his a projecting rock in the trench wall, gives a clang which is followed by a curse from the clumsy owner and admonitions to be quiet from some young lieutenant.

**THE TRENCH ENTERED.**  
We entered the trench under cover of darkness at an unmemorable hour, relieving French veterans, who retired to the support trenches. During the day before the infantry was quartered in a small, battle-scarred village at a safe distance behind the lines. They reached that place after easy marches. From their camps in the American army the doughboys were transported in trucks through dozens of French towns. The population, well aware of the destination, turned out in full force to cheer the helmeted Americans trenchward.

For three days I have been living with an American battery before the front line. Our battery is equipped with the lightest field pieces. It was one of the first to go into position at an advance station immediately behind the trenches to be occupied by the Americans.

My attachment to this battery, at the invitation of the general, made it possible for me to be one of the two correspondents attached to the artillery at the front when the American soldiers took up positions in the line, and at the hour when the first shell fired by the United States Army against the Germans sped through the early-morning air on its history-making mission.

Neither the American nor French commander-in-chief was present. To many of the men and officers of the first units the scenes and conditions hardly conformed with their news-fed perceptions of what the front should be. The front line is usually written about as being a pretty hot place. It is impossible by any stretch of imagination to say that of the front line the United States are holding tonight for the first time.

**RESTING EASY.**  
For many months both French and German forces at this point have been satisfied to let things run their course. The front line is usually written about as being a pretty hot place. It is impossible by any stretch of imagination to say that of the front line the United States are holding tonight for the first time.

Behind the lines of both forces are certain villages in which each side knows the other side has men billeted. By a mutual unspoken agree-

**PENINSULA IN BELGIUM IN HANDS OF ALLIES.**  
French Advance in Flanders Continues, but Italian Defeat Causes a Grave Situation to Arise.

**[BY ATLANTIC CABLE AND A. P.]**  
LONDON, Oct. 28.—The entire Merkem peninsula near Dixmude, has been captured by the Entente forces, according to the British official communication issued this evening. The communication adds that additional prisoners also have been taken.

British aerial attacks on German military establishments in Belgium were continued actively on Friday night and Saturday, and an official report issued today indicates that considerable damage was caused.

**FRENCH ADVANCE.**  
**[BY ATLANTIC CABLE AND A. P.]**  
PARIS, Oct. 28.—The French advance in Belgium continues, the War Office reports. German positions were stormed last night and more prisoners were taken.

**BERLIN REPORTS.**  
**[BY ATLANTIC CABLE AND A. P.]**  
BERLIN (via London), Oct. 28.—Attacks of Entente Allied troops on the Ypres front near Houtholst wood yesterday brought them no important advantages, the War Office reports. French attacks on the Aisne front are said to have been repulsed.

The text of the statement reads:

"In Flanders there was spirited artillery activity near Dixmude and at Houtholst wood. At the Oise-Aisne canal near Flin, there were local engagements. In the east, nothing of importance occurred. The Italian second and third armies are in retreat towards the west. Our pursuit is advancing rapidly from the mountains as far as the sea. Up to the present, 100,000 prisoners and 700 guns have been annihilated."

**ITALIAN ADVANCE.**  
**[BY ATLANTIC CABLE AND A. P.]**  
ROME, Oct. 28.—(British Admiralty per Wireless Press.) Units of the Italian Second Army succeeded or retreated without fighting, permitting the Austro-German forces to break the Italian left wing on the Julian front and invade Italy, says today's official report. The Italians are now retreating in accordance with the plan prepared.

**BERLIN (via London) Oct. 28.**—The capture of 100,000 Italians and more than 700 guns is reported in the official communication from General Headquarters today, which declares that Italian Second and Third armies are in retreat.

**AMSTERDAM, Oct. 28.**—The occupation of Gorizia this morning by Austro-German forces is announced in an official dispatch from Vienna. The Italians are said to have retired across the Isonzo.

**BELGIANS PLAY PART IN SPECTACULAR OFFENSIVE.**

**[BY ATLANTIC CABLE AND A. P.]**  
BRITISH FRONT IN FRANCE AND BELGIUM, Oct. 28.—The story of the highly important victory won by the French and Belgian armies over the marshlands of Flanders yesterday is the record of a spectacular military operation, which before its completion would have been branded as impossible by the average expert. It is a story of men who battled their way forward over morasses and through water into which they sank literally to their necks at times, and, with rifle and cold steel, conquered the enemy in a large and vital strip of territory which includes within its borders such places as Klippe, Merkem, Aschhoop, Verbrandemolen, and Keetermolen.

The striking feature of the performance lies in the part played by the Belgians in yesterday's drive. When the Polish reached the neighborhood of Luyghem in the afternoon and began their assault on this place, the Belgians, who were watching from the lines across the borders such places as Klippe, Merkem, Aschhoop, Verbrandemolen, and Keetermolen.

**ASSOCIATED PRESS REVIEW OF THE ITALIAN SITUATION.**

**T**HE Austro-German army, under the command of Emperor Charles, who has as his chief assistant the brilliant Field Marshal Von Mackensen, are shaking the entire Italian line from the Julian Alps region to the Adriatic Sea, the Associated Press says in its review of the official war dispatches for the past twenty-four hours. Pressing back the Italians at several points on Italian soil, the combined enemy forces now have pushed forward on the Italian left wing and captured Cividale, lying to the north-east of Udine, and are nearing the plains beyond. In addition, the Austrian town of Gorizia, a point of great strategic value on the Isonzo River, has been retaken from the Italians.

According to the latest Berlin official communication, 100,000 Italians have been made prisoners, and in excess of 700 guns have fallen into Austro-German hands. The Second and Third Italian armies are declared to be in retreat. Rome admits the falling back of the Second army, asserting that coward-

ice similar to that shown by the Russians in Galicia, was exhibited in the face of the foe, the Italians surrendering or retreating without giving battle, permitting the breaking of the left wing and thereby offering easy access to the town of Cividale. Prior to falling back, however, the Italians destroyed all their depots and stores, and Cividale was on fire when the Austro-Germans entered it.

Possibly the Italians in this region, who are declared by Rome to be retreating to prepared positions on the plains, will turn about and meet the enemy in open-country fighting.

If they do not, and the enemy is able to keep up westward the fast pace that has been maintained since the commencement of the operation, the greater part of the Italian forces along the northeastern line will be threatened with capture. The situation is so grave that a special meeting of the French Cabinet has been held for the purpose of dealing upon the question of allied co-operation on the Italian front.

# "Eat Less, Waste Less!" Is the Command of the President to all the American People.

## WILSON PROCLAMATION AFFECTING YOUR DIET.

### Every Home and Public Restaurant Urged to Co-operate to Reserve Supplies for Our Allies.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 28.—President Wilson, in a statement issued today, urged every home and public eating-place in the United States to pledge its support to the food administration, and to comply with its requests. His appeal marked the inauguration of Family Rationing Week, during which everybody in the country was asked to become a member of the food administration in order to insure nation-wide co-operation in food conservation.

The President said that in no other way than through this co-operation of the people, can the nation accomplish its object in the war. The statement follows:

"The chief part of the burden of finding food supplies for the peoples associated with us in war falls for the present upon the American people, and the drain upon supplies on such a scale necessarily affects the prices of our necessities of life.

"Our country, however, is blessed with an abundance of foodstuffs, and if our people will economize in their use of food, and if they will devote themselves to the quantities required for the maintenance of health and strength, if they will eliminate waste, and if they will make use of

Analytical.

## EXPERT MILITARY VIEW OF THE ITALIAN CRISIS.

### "Great Movement of the War May Play Havoc with the Romans."

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

WASHINGTON BUREAU OF THE TIMES, Oct. 28.—The latest dispatches from Berlin and Rome show clearly that the drive of the new Austro-German army against the Italians on the Isonzo front is one of the great movements of the war and destined to play havoc with Italy.

This statement was made tonight by a high ranking military expert. Continuing, he said:

"With Teutonic troops debouching on the Italian plains there was no chance for Gen. Cadorna, brilliant commander that he is, but to withdraw his army from Gorizia, which was originally captured at frigid cost and after months of bitter fighting.

"The Rome dispatch stating that units of the Second Italian army gave way to the Germans or surrendered without fighting, would seem to indicate that the Austro-German army has set in among Gen. Cadorna's forces.

"It had been hoped that Gen. Cadorna would be able to hold the passes indefinitely while England and France rushed reserve supplies of guns and ammunition to his assistance. With the Germans already through the passes in some places, the Italian commander was compelled to evacuate Gorizia or run the risk of losing another big bag of the very cream of his army, his entire line in that region being imperiled.

"Military men here had feared that Gen. Cadorna consumed most of his reserves of ammunition in his forward drive toward Trieste, which was a most notable success. In doing so, the Italian commander unquestionably assured that Austria would not be in condition to strike a hard blow in return and that British and French would keep the Germans so busy that they could not spare an effective force. This reasoning must have counted on Russia and Rumania stiffening up their lines, which they have failed to do. In consequence, when a great human battle raged, backed by enormous reserves of guns and

Stress and Sympathy.

## ALL BRITAIN STIRRED BY ITALIAN DEFEAT.

### "We Must not Let Italians Suffer Fate of Rumania," London Press Protests.

(BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.)

LONDON, Oct. 28.—The German advance upon Italy through the Julian Alps has forced upon the British government the necessity of a decision upon points which for some time have been a matter of highly serious controversy. The contingency of a heavy onslaught upon Italy with the expectation of political as well as military results of the highest importance had been reckoned upon by the British war cabinet with the result that a considerable force of artillery was dispatched to Cadorna. Lloyd George, during his visit to Italy, did not definitely commit himself, but he left the impression with his Italian allies that they must count on the fullest support from Great Britain should the need arise.

QUESTION.

The Manchester Guardian yesterday asked:

## DOCTRINE OF "CLEAN PLATE" IS PREACHED BY HOOVER.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Oct. 28.—Every country in California has been thoroughly organized for the food-pledge campaign that begins tomorrow, Ralph P. Merritt, State food commissioner, announced tonight. Food Administrator Hoover has asked 600,000 signatures as California's part in the national effort to save food for the American people and their allies.

"We are anxious to 'go over the top' in the matter of pledges," Mr. Merritt said. "California has been made the target for other States. We have been challenged. Other States are out to beat us on a percentage of population. We have accepted these challenges.

Mass meetings have been arranged over the State to arouse enthusiasm in pledging.

Place of Honor.

## LONDON "PLAYING UP" AMERICAN OFFENSIVE.

(BY ATLANTIC CABLE AND A. P.)

LONDON, Oct. 28.—News that the American troops have fired their first shot of the war on the western front took the place of honor in the Sunday papers with the first American official statement from Paris. The announcement was received with great enthusiasm by the American Congressmen, who are here. They said it would carry profound satisfaction to the people of America.

Telling of the event, the correspondent of the Weekly Dispatch says:

"The Allies are extremely fortunate in having American troops take a place in the line at a comparatively quiet time of the year. During the winter they will have ample opportunity of mastering the intricacies of trench warfare, which never can be taught satisfactorily behind the lines. Within four or five months they should become seasoned troops."

Unpatriotic.

## SEEK THOSE WHO DO NOT OBSERVE MEATLESS DAY.

A SYSTEMATIC search for restaurants serving meat tomorrow, the national meatless day, will be made by Vernon Goodwin, United States food administrator for hotels and restaurants in Southern California.

"It has been brought to my attention that many in Los Angeles and Southern California violated the government meatless day last Tuesday," said Mr. Goodwin yesterday. "While the matter is not compulsory, yet it is an absolute patriotic duty for hotels and restaurants to observe this day.

"I am pleased to say that the majority did, but a large number of places, especially Greek and Portuguese restaurant men, ignored our plea.

"These are the fellows that I am going to ferret out tomorrow and succeeding Tuesdays.

"In San Francisco it is asserted that pro-German and unpatriotic persons are urging restaurant men to fight against meatless days with a view of disrupting the government's control of the food situation. I know that such is not the case here.

"It is merely a question of thoughtless and heedless men who do not realize the great national danger. However, they will have the matter brought sharply to their attention ere long."

Options Taken.

## NO AMERICAN SUGARS FOR NEUTRAL NATIONS.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 28.—Options have been taken by the food administration upon all the sugar belonging to neutral countries held in this country awaiting export. This was disclosed tonight in a statement by the administration denying published reports that it was trying to force the neutrals, unable to get export licenses, to sell their sugar at a loss.

The options are at the prices paid by the neutrals. No figures were given, but the administration said that with tariff duty added the average price would be 50 cents a 100 higher than the price it has undertaken to maintain for the benefit of the American consuming public.

Charity.

## WILSON ASKS CASH TO RELIEVE ARMENIANS.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 28.—President Wilson tonight appealed to the American people again to contribute to the relief of the stricken Armenian and Syrian peoples. The situation, among more than 2,000,000 destitute survivors of Turkish atrocities, he said, is "so distressing as to make a special appeal to the sympathies of all."

The President's statement, addressed to the American people, follows:

"One year ago, in compliance with resolutions passed by the Senate and by the House of Representatives, I appointed days upon which the people of the United States might make such contributions as they felt disposed for the aid of the stricken Armenian and Syrian peoples.

"American diplomatic and consular representatives and other American residents, recently returned from Western Asia, assure me that many thousands of lives were saved from starvation by the gifts of the American people last winter. They also bring full assurance of the continued effective distribution of relief, and report that

the suffering and death, exposure and starvation, will inevitably be very much greater this winter than last, unless the survivors can be helped by further contributions from America.

"Reports indicate that of orphans alone there are more than 400,000, besides women and other dependent children reaching a total of more than 2,000,000 destitute survivors. The situation is so distressing as to make a special appeal to the sympathies of all.

"In view of the urgent need, I call again upon the people of the United States to make such further contributions as they feel disposed, in their sympathy and generosity for the aid of the suffering peoples. Contributions may be made through the American Red Cross, Washington, D. C., or direct to the American Committee for Armenian and Syrian Relief, Cleveland H. Dodge, treasurer, No. 1, Madison avenue, New York.

"WOODROW WILSON."

Mayor Mitchell of New York City is issuing a proclamation designating November 10-11 as Armenian-Syrian relief days. It is expected Mayors of other cities will designate days for the same purpose.

## LOAN TOTAL IS IN DOUBT.

Cautious Statement Issued by Treasury Department.

Excess of Five Billions is not Positively Assured.

Indications are the Maximum has been Reached.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 28.—The total amount subscribed to the second Liberty Loan, the Treasury Department announced tonight, is still "a matter of speculation." Several days probably will elapse before the full extent of the nation's subscription is ascertained.

The department was without figures tonight showing any change in the estimated totals, other than in the New York district. New York's maximum of \$1,500,000,000, reported last night to have been exceeded, might be increased by late returns to as much as \$1,750,000,000.

Reserve bank officials and local committees, working until after midnight last night all over the country, rested today. Few districts even reported to the treasury, and the assumption was that they would take their time in transmitting the final. They have till next Thursday to make the complete report.

Returns received at the treasury today gave little indication as to the final result. The department announced tonight. "On the face of

of returns, it cannot be said whether the sale exceeded \$5,000,000,000. "Conviction is general, however, that it probably approximated the maximum total.

"It seems certain that every district has gone well past its minimum, and that several will exceed their maximum sufficiently to carry the weaker districts to the high mark in the general total.

"New York, Chicago, Cleveland and San Francisco were showing especially strong in the late reports. Chicago district chairmen have begun to feel that their total may reach the maximum of \$700,000,000.

"At last reports, virtually every part of the San Francisco district had passed its minimum, and many had gone beyond their maximum.

"Indiana have subscribed \$2,566,750, according to latest reports by Cato Sells, commissioner of Indian affairs.

"Figures now in show that the army has subscribed something over \$32,000,000. About \$50,000,000 has been allotted by soldiers to the Federal reserve banks at New York. Gen. Pershing cables that \$5,784,600 has been subscribed by the American expeditionary forces in France.

## TWO NAVY OFFICERS PERISH IN STORM.

(BY A. P. NIGHT WIRE.)

AN ATLANTIC PORT, Oct. 28.—Two warrant officers attached to the deep sea diving force of the United States Navy lost their lives through the capsizing of a barge in a storm early today. They were Rudolph Zuehner of Webster, N. Y., and Charles H. Blinn of Minneapolis.

MANILA'S CONTRIBUTION.

(BY PACIFIC CABLE.)  
MANILA, Oct. 28.—The total of subscriptions to the Liberty Loan in the Philippine Islands, was \$3,000,000.

## DRINKS WHISKY, DIES.

Infantryman Succumbs at Sacramento After Imbibing Liquor Purchased from Bootlegger.

(BY A. P. NIGHT WIRE.)

SACRAMENTO (Cal.) Oct. 28.—William S. Dick, a United States infantryman stationed at the Presidio, San Francisco, died here early today and his companion, Clyde Tidale, also an infantryman, from the Presidio, told the police tonight that he and Dick had become ill after drinking a quantity of whisky purchased for them in a Sacramento saloon. Dick, the attending physician said, showed symptoms of poisoning. An autopsy will be performed to ascertain the cause of his death.

Both men were in a stupor when they were removed to a local hospital early today and Dick never regained consciousness.

Tidale was unable to furnish the authorities with a description of the man, who the police said Dick claimed purchased the whisky for them.

Dick was about 35 years of age. The police had not learned where either of the men enlisted.

## ENTENTE AVIATORS KILL SIX IN RAID.

(BY ATLANTIC CABLE AND A. P.)

BERLIN, Oct. 28 (via London).—Air squadrons of the Entente raided industrial districts in Lorraine and Luxembourg on the night of October 24-25, according to an official announcement today. Five persons were killed and four injured at the time of the raid. No military damage was done, the statement says.

## LIBERTY LOAN FIGURES FROM SAN FRANCISCO.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Oct. 28.—Liberty Loan subscriptions kept the staff of the twelfth Federal reserve bank busy all today, with the count indicating approximately \$1,000,000,000 for the district, \$100,000,000 for California, and \$15,000,000 for San Francisco. As the official returns, which are sent in by mail, have so far covered only the earlier subscriptions, accurate totals are not expected by the bank officials before next Thursday.

The government will be perfectly satisfied with \$4,000,000,000 and James K. Lynch, governor of the bank tonight. "The figure of \$1,000,000,000 was more than anything else a high mark to shoot at."

"The weak point of the campaign has been lack of sufficiently wide distribution. I think that not enough has been secured from the farmers throughout the State and from the \$100 and \$500 persons in cities."

## MEXICANS DEFEATED BY YAQUI INDIANS.

(BY A. P. NIGHT WIRE.)

EL PASO (Tex.) Oct. 28.—Yaqui Indians defeated Gen. Gomez's Federal command at Pecos, Sonora, October 22, according to a delayed message received tonight. No details were given.

## CASTORIA For Infants and Children In Use For Over 30 Years.

Always bears the Signature of *Dr. H. H. H.*

**"HIS MASTER'S VOICE"**  
REG. U.S. PAT. OFF.

To insure Victor quality, always look for the famous trademark, "His Master's Voice," in the products of the Victor Talking Machine Company.

Victrola IV-A, \$28

Victrola VI-A, \$30

Victrola VIII-A, \$45

Victrola IX-A, \$57.50

Victrola X-A, \$85 (Out about November 1)

Victrola XI-A, \$110

Victrola XIV, \$165

Victrola XVI, \$215

Victrola XVII, \$285

## See and hear these new Victrolas at all Victor dealers

The Victor Company now announces the complete new line of Victrolas—the very latest developments of the world's greatest musical instrument. New models, with many new and valuable improvements—and just in time for the holiday season.

That the public may comprehend the great variety of styles, we illustrate the complete line in miniature. But to properly appreciate just what these improvements have accomplished, it is necessary for you to actually see and hear these new improved Victrolas.

Go to any Victor dealer's and he will gladly demonstrate them and play any music you wish to hear. Go today—the Christmas demand for the Victrola is already on, and these new models will this year create a larger demand than ever.

Victor Talking Machine Co., Camden, N. J.

Important Notice. Victor Records and Victor Machines are scientifically coordinated and synchronized by our special process of manufacture, and their use, one with the other, is absolutely essential to a perfect Victor reproduction. New Victor Records demonstrated at all dealers on the 1st of each month.

# Victrola

"Victrola" is the Registered Trade-mark of the Victor Talking Machine Company designating the products of this Company only. Warning: The use of the word Victrola alone in the promotion or sale of any other Talking Machine or Phonograph products is misleading and illegal.

**RED CROSS WILL HELP ITALIA**

BY DIRECT WIRE—EXCLUSIVE DISPATCH  
SAN DIEGO, Oct. 28.—Henry Darrow, chairman of the War War Council of the American Red Cross and partner in J. Pierpont Morgan & Co. of New York, made his first speech in San Diego this morning at the First Methodist Church and told his audience that he intends to send a telegram tomorrow morning authorizing the expenditure of \$2,500,000 for the establishment of the American Red Cross hospital in the Italian battlefield. The American Red Cross hitherto has not organized work with the Italian army. Mr. Darrow will speak tomorrow at a luncheon in the U. Grant Hotel.

**CAPTURE OF RIGA STOPS LINEN SUPPLY**

(A. P. FOREIGN CORRESPONDENCE)  
LONDON, Oct. 10.—The manufacturers of England, Scotland and Ireland are somewhat anxious about their supplies, owing to the capture of Riga by the Germans. That the enemy is now experimenting with netting, of which it is to be used for making yarn and cotton.

**EDISON'S INVENTION FREE**

The New Edison Diamond Disc Phonograph (With a Soul) will be placed in your home without a cent of cost. Make monthly payments later. This must be arranged through the Fitzgerald Music Company, 727-729 Hill St., near Sevenside—Advertisement.

LIBERTY LOAN FIGURES FROM SAN FRANCISCO.

(BY A. P. NIGHT WIRE.)  
SAN FRANCISCO, Oct. 28.—Liberty loan subscriptions kept the bank busy all today, with the count of the twelfth Federal Reserve bank for the district, totaling \$2,000,000 for California, and \$75,000,000 for San Francisco. As the official figures, which are sent in by mail, have so far covered only the earlier subscriptions, accurate totals are not expected by the bank officials here next Thursday.

The government will be perfectly satisfied with \$4,000,000,000, said Mrs. E. J. Lynch, governor of the bank tonight. The figure of \$2,000,000,000 was more than what the bank had expected. The bank had expected a high mark to shoot at. The bank had expected a high mark to shoot at. The bank had expected a high mark to shoot at.

## PASTOR SCORES POLICE JUDGES.

That Courts Here Have Aided Commercial Vice.

## Teacher Assails Laxity of Los Angeles Jurists.

## Synthetic Actions Blamed for Prevalence of Crime.

During the police judges of Los Angeles unmercifully, stating that the record of some shows "that they are really worked right into the hands of those who wish to commercialize the social evil in our city."

J. Whitcomb Brounger preached yesterday to a large audience in Temple Auditorium on the subject of "The Unjust Judge." He said that the police judges of Los Angeles are not doing their duty. He said that the police judges are not doing their duty. He said that the police judges are not doing their duty.

## LAXITY SCORED.

But the laxity on the part of our judges is not alone confined to gambling, the illegal sale of liquor and traffic violations receive full share of consideration. The laxity what is done in regard to the gamblers and their clients become so bold and prosperous that they have openly defied the police. Squad of our police officers. In a recent case five were arrested for gambling. They were given cash bail and returned to the gaming table the same night. When arrested these same men were a few hours and with them the men who conducted the game. When they were taken before Judge White they were fined \$10 for the first offense and for the second offense they were given a suspended sentence. The man conducting the game was also represented with a suspended sentence. I suppose that if these same gamblers had been brought before the judge three or four times he would have just dismissed the cases.

## NEED NEW PLAN.

There ought to be some plan whereby those who are perpetual law-breakers should be either sent to some reformatory institution. There ought to be some plan whereby those who are perpetual law-breakers should be either sent to some reformatory institution. There ought to be some plan whereby those who are perpetual law-breakers should be either sent to some reformatory institution.

## RED CROSS WILL HELP ITALIANS.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)  
SAN DIEGO, Oct. 28.—Henry P. Hanson, chairman of the War Work Council of the American Red Cross, said today that the American Red Cross will help the Italian people of Los Angeles who are in need of food and clothing. He said that the American Red Cross will help the Italian people of Los Angeles who are in need of food and clothing.

## CAPTURE OF RIGA STOPS LINEN SUPPLY.

(A. P. WIRE.)  
LONDON, Oct. 28.—The linen supply of England, Scotland and Ireland are somewhat anxious about their supplies, owing to the capture of Riga by the Germans. It is believed that the principal stock of linen is in Riga, and that the capture of Riga will stop the linen supply.

## WILLARD ACQUITTED ON MURDER CHARGE.

(BY A. P. NIGHT WIRE.)  
SALT LAKE CITY (Utah) Oct. 28.—Arthur L. Willard, Bingham High School principal, who shot and killed his former school friend and pupil, Cecil Holmes, at Bingham June 13, was yesterday adjudged not guilty by a jury in the District Court here. The jury was out two and one-half hours.

## WILLARD ACQUITTED ON MURDER CHARGE.

(BY A. P. NIGHT WIRE.)  
SAN FRANCISCO, Oct. 28.—The Guardian Casualty and Guarantee Company of Utah will go into liquidation. It was announced here last night. Creditors will be fully paid. It is believed, as the principal stockholders have pledged \$125,000, which, with the funds on hand, will permit a voluntary dissolution.

## FRENCH AVIATORS MAKE BOLD ATTACK.

(BY ATLANTIC CABLE AND A. P.)  
LONDON, Oct. 28.—The official statement on aviation activities issued last night by the War Office follows:

"On Friday night fell most of the day, but in spite of this our air-planes went out and performed valuable work in locating our attacking infantry and reporting suitable targets to our artillery. Our air-planes, flying at low altitudes, fired 10,000 rounds from their machine guns on hostile troops that were endeavoring to repair entanglements, on the enemy's horse and mechanical transports on the roads and on enemy infantry on the march and in shell holes."

## POTASH SUPPLY NOW ASSURED.

Thirty Thousand Tons Made in America Last Year.

## California Lake Contains an Enormous Deposit.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)  
CHICAGO BUREAU OF THE TIMES, Oct. 28.—Thirty thousand tons of pure potash, almost one-eighth of the country's total demand, will have been manufactured in America by January 1, 1918, and within a year America will be almost independent of German imports of potash, according to Charles H. McGowan, president of the American Potash Company, and a member of the Potash Committee of the National Defense Council. McGowan pointed to the similarity of a process to extract potash from smaller and blast furnaces which has been used in America to that described in an interview with Sir Stephenson Kent, head of the British munitions mission to this country.

## GOVERNMENT LIMITS PROFITS ON FOOD.

REGULATIONS FOR WHOLESALE DEALERS ARE FIXED.

Must be Governed by Actual Cost Price and not by Any Addition of the Market—New Rules will Become Effective November First.

## WHOLESALE PROFITS IN WAR TIMES.

WASHINGTON, Oct. 28.—Wholesale profits in war times, at least on non-perishable foods, should be governed by the prices they actually pay and not by prevailing market conditions, the food administration has decreed in special regulations which will be put into effect November 1 with respect to several commodities.

The rule is one of many drawn for the guidance of food dealers which will be placed under license next Thursday, said a statement tonight by Food Administrator Hoover, and the commodities affected include meat, beef, pork, mutton, syrups and molasses, cleaned rice and rice flour, oleomargarine, lard and shortening, condensed milk and various canned goods and dried fruits.

## WHOLESALE PROFITS IN WAR TIMES.

Wholesale dealers in refined sugar are forbidden by a similar rule to sell "at an advance over the refiners' list price at which he purchased such sugar greater than the market or replacement value at the time of such sale."

A general rule covering all food products provides that they shall not be handled anywhere in the United States on an "unjust, exorbitant, unreasonable, discriminatory or unfair commission, profit or storage charge." Regular and special reports will be called for by the food administration from each licensed dealer.

## RELATIVE OF LOVETT SENT TO ASYLUM.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)  
NEW YORK BUREAU OF THE TIMES, Oct. 28.—Saying that "passion had taken the place of reason," Supreme Court Justice Goff today committed to a sanitarium, William C. Abercrombie, lawyer and brother-in-law of Robert Scott Lovett, chairman of the Union Pacific Railroad. The decision was the outcome of an effort by Abercrombie to upset a commitment to Bellevue for observation. The Bellevue commitment had been ordered on petition of his brother, Leonard A. Abercrombie, also a lawyer.

## ADVERTISING DIDN'T PAY IN THIS CASE.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)  
KANSAS CITY, Oct. 28.—John Lamasney, a farmer, 46 years old, living seven miles southwest of Olathe, Kan., who advertised a reward of \$3000 to any one who proved that a God existed and who later wrote obscene letters to Billy Sunday in the hope of having his theories tested out in court, has at last realized a part of his wishes. He is in the Wyandotte County Jail facing a charge of depositing obscene literature in the mails. He was indicted at Leavenworth, Kan., and was arrested on his farm yesterday.

## TWO AVIATORS FALL INTO BAY, RESCUED.

(BY A. P. NIGHT WIRE.)  
NEWPORT NEWS (Va.) Oct. 28.—Lieut. Lamont, a French aviator, instructing American army students at Langley Field, near here, and an American army officer whose name was not disclosed, fell into Chesapeake Bay today with a big French airplane. They were rescued by small boats near by.

## INTERPRETER FOR PERSHING.

(BY A. P. NIGHT WIRE.)  
STANFORD UNIVERSITY (Cal.) Oct. 28.—John Sellards, former student and instructor at Stanford University, has been selected as interpreter for Maj.-Gen. John J. Pershing, according to information received here yesterday. Sellards enlisted in the second Stanford ambulance unit, but was transferred to Gen. Pershing's staff.

## ANOTHER Overhead YOU MUST MEET

EVERY unmarried person earning more than \$1000 a year and every married person whose yearly income, jointly with husband or wife, is more than \$2000, is affected by the new tax law.

If you are unmarried and have a net income of \$1000—that is, an income which with deductions allowed by law amounts to \$1000—you must pay a tax. If you are married and the income of yourself and wife or husband exceeds \$2000 you must pay a tax.

Meet this added overhead expense by opening a TAX FUND SAVINGS ACCOUNT here. Deposit each week or month a definite share of money needed for taxes. Then by June 1st, when taxes are due, you will be able to meet them without difficulty.

These accounts bear interest. Our New Accounts Department will be glad to explain the plan in detail.

Our Trust Department can help you make up your income return, which must be filed between January 1st and March 1st. Ask for Mr. Smith or Mr. Cook.

## ANGELS' VICTORIES FAIL TO LAND THEM FLAG.

### Northern Team Makes Strong Finish, but Rivals do Likewise.

By HARRY A. WILLIAMS.

San Francisco four to the good. Anyway, the bugs got one good yell for their mercurial money.

LOOKS LIKE FIGHT. Los Angeles amazed another bunch in the sixth, when Zeb cleaned the bases with a double. By that time, however, the handwriting could be seen on the wall, and no great excitement prevailed. Even the score of the fans could be seen leaving the park and hitting the trail for Jack Doyle's.

Daley and Meusel came near mixing the footers. They have been crabbing at each other for some time. The climax was reached in the fifth, when Farmer speared hard liner by Meusel. In coming back to the bench, Irish passed near the Portland pitcher. Pleasantly surprised, when Daley suddenly drew back as though to swing Meusel. Irish also drew back, but before either man could pull the trigger and kill his opponent on the spot, Messrs. Casey and Frary intervened. Umpires will sometimes rush in where angels fear to tread. Both combatants will be recommended for the army.

Secretary Webster tolled far into the evening setting with the heavy hitting. The accumulated score amounted to \$10, which speaks highly for the Angels as a hitting club.

Los Angeles lost, but nobody excepted the match and clinching a kick coming. One championship and a good second in two years is fair enough. The scores:

Morning game:

	P.	A.	R.	E.	R.	P.	O.	A.	E.
San Francisco	0	0	0	0	0	0	0	0	0
Los Angeles	0	0	0	0	0	0	0	0	0

Afternoon game:

## GRAB CHAMPIONSHIP BY TAKING MORNING GAME.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

SAN FRANCISCO BUREAU OF THE TIMES, Oct. 20.—The Seals stepped out and won the Coast League pennant this morning, at Oakland, before a hostile crowd, when they took the game 5 to 1. They came back on this side of the bay in the afternoon and showed they were entitled to the flag by beating Oakland again, 3 to 1.

The Seals simply had to win one game to make sure of the flag and the boys were right up on their toes in the morning to make it a sure thing. Rudy Kallio, the youngster, was named out to Des Moines last spring, was the boy who put it over, and he pitched a game that would be mighty hard to beat. He let the Oaks down with two hits and would have blanketed them had Roy Corhan and George Meisel not collided running after a fly ball in the fifth. Both the hits made off him were two-baggers, but the ball hit by Arlett took a crazy hop and Corhan was unable to catch it. There have been just an ordinary single. The double hit by Middleton in the first inning was a CHANCE.

Kallio had on display a curve ball that not only fooled the Oaks badly but it had Red Held guessing wildly. The young fellow acted like a real pitcher all the way and after his mates had put some runs under him the Oaks had no chance.

With Arlett on second base by reason of his fuke double, Dan Murray lifted a fly to short center. Meisel came tearing in while Corhan scooted out to get it. Just as Corhan turned to take the ball, Meisel bumped him and pulled him to the ground. Meisel picked it up and fired it into the Oakland dug-out trying to beat Arlett off at third. Arlett scored the only run made by the Oaks—and on that double-barreled error.

With that exception the new champions played perfect ball in the field. They also stood up well behind Chief Johnson in the afternoon. Bill Stumpf is the best ball player on a team in the league. He is charged with three errors, but he could have been exempted from two of them.

BUMPER CROWD. Phil Koerner opened the fourth with a fearfully hard shot which turned the Seals' home run. He was charged with an error. Koerner should have had a hit on it. Phil scored later on hits by Baker and Phil.

Del. Howard shot Harry Krause, the Sox southpaw, at the Seals in the morning. He pitched a perfect game, but he was charged with three errors, but he could have been exempted from two of them.

There is about as much satisfaction in winning the flag in a race as in winning the flag in an uneven field. It was necessary for the Seals to win the flag. After that it played at a .600 clip, or good enough to win the pennant in nine out of fifteen starts. When the Seals started this climb San Francisco was topping them by eleven games. Killer brought the club up from fourth place to first, only finally to be nosed out by one game and a fraction.

From midseason the Seals had a battle on their hands, and they were given a hard fight. After that it played at a .600 clip, or good enough to win the pennant in nine out of fifteen starts. When the Seals started this climb San Francisco was topping them by eleven games. Killer brought the club up from fourth place to first, only finally to be nosed out by one game and a fraction.

No club in the history of Coast League baseball ever experienced more consistently hard opposition than the Seals. They were the champions, and "Anything to beat the champs" is generally the watchword of every other club in every league. As a rule every club was going at top speed when it met the Angels. Portland is a case in point. The Beavers dropped seven games out of Oakland, then came south and played like champions. Out of the race themselves, they wanted a battle in deciding the pennant. Why? Simply because that is one of the angles of human nature. And they knocked the Angels out of the championship. Then they played their best ball against Los Angeles, winning nineteen and losing twenty-three.

The Seals are attributed to local pride, or neighborhood rivalry. Just another peculiar kink in human nature. Had the Tigers not shown such speed against the Angels, the race would not have been close enough for Portland to put on the finishing touch. But they would have it otherwise. That's baseball. Up north the Oaks were doing

at the show, having as large a space as any exhibitor. His space is in the south tent, in fact, he has the entire west half of that tent. This will show the first complete showing of Cadillac models. All the open cars and the various inclosed types will be here for show week and those not displayed at the show will be exhibited in the showroom.

In addition to the open models there will be a victoria, brougham, town car, town car landaulet, limousine and landaulet. It is hoped that an Imperial limousine will be here in time for the show.

Consistency. "No, my husband never talks his business affairs over with me. One of his favorite expressions is that he always leaves his business at the office."

"That's the way with my husband. He always leaves his business at the office, too. Now there's just one thing I wish he would learn to do."

"What's that?" "Leave his golf on the links."

COAST LEAGUE FINISH. San Francisco, 119 93 .561 Los Angeles, 116 94 .552 Salt Lake, 102 97 .513 Portland, 98 98 .500 Oakland, 103 108 .488 Vernon, 84 123 .336

Results of Series. San Francisco, five; Oakland, two. Los Angeles, four; Portland, three. Salt Lake, four; Vernon, two. Yesterday's Results. Los Angeles, 13; Portland, 3 (morning). Los Angeles, 5; Portland, 1 (afternoon). San Francisco, 5; Oakland, 1 (afternoon). Vernon, 7; Salt Lake, 6 (one game).

## BASEBALL NOTES.

LOSING the championship was a bitter blow to Johnny Powers, but he accepted the result like a thoroughbred. This from the man who spent his money so freely in an effort to turn out a winner: "I wanted to keep the title in Los Angeles, and failure of the club to finish in front was a great disappointment to me. However, something like this climb San Francisco was topping them by eleven games. Killer brought the club up from fourth place to first, only finally to be nosed out by one game and a fraction.

There is about as much satisfaction in winning the flag in a race as in winning the flag in an uneven field. It was necessary for the Seals to win the flag. After that it played at a .600 clip, or good enough to win the pennant in nine out of fifteen starts. When the Seals started this climb San Francisco was topping them by eleven games. Killer brought the club up from fourth place to first, only finally to be nosed out by one game and a fraction.

From midseason the Seals had a battle on their hands, and they were given a hard fight. After that it played at a .600 clip, or good enough to win the pennant in nine out of fifteen starts. When the Seals started this climb San Francisco was topping them by eleven games. Killer brought the club up from fourth place to first, only finally to be nosed out by one game and a fraction.

No club in the history of Coast League baseball ever experienced more consistently hard opposition than the Seals. They were the champions, and "Anything to beat the champs" is generally the watchword of every other club in every league. As a rule every club was going at top speed when it met the Angels. Portland is a case in point. The Beavers dropped seven games out of Oakland, then came south and played like champions. Out of the race themselves, they wanted a battle in deciding the pennant. Why? Simply because that is one of the angles of human nature. And they knocked the Angels out of the championship. Then they played their best ball against Los Angeles, winning nineteen and losing twenty-three.

The Seals are attributed to local pride, or neighborhood rivalry. Just another peculiar kink in human nature. Had the Tigers not shown such speed against the Angels, the race would not have been close enough for Portland to put on the finishing touch. But they would have it otherwise. That's baseball. Up north the Oaks were doing

at the show, having as large a space as any exhibitor. His space is in the south tent, in fact, he has the entire west half of that tent. This will show the first complete showing of Cadillac models. All the open cars and the various inclosed types will be here for show week and those not displayed at the show will be exhibited in the showroom.

In addition to the open models there will be a victoria, brougham, town car, town car landaulet, limousine and landaulet. It is hoped that an Imperial limousine will be here in time for the show.

Consistency. "No, my husband never talks his business affairs over with me. One of his favorite expressions is that he always leaves his business at the office."

## SEATON TURNED OVER TO CUBS.

Tom Seaton, immediately after his contract with Los Angeles expired yesterday afternoon, was notified by Walter McCredie that he had been turned over to Portland by the Chicago Cubs for next season, in part payment for Dave Hollocher.

It is not at all certain, however, that Seaton will appear in a baseball uniform next year. He received notice to report to Chicago at American Lake, and left for that point last night. As he hasn't claimed exemption, and assumes to pass the physical examination, it is probable that he will see service with the Bulls-eye Men in France.

# NEW RATE FOR WHEAT IS BOON.

Coast Mills will Get More Business in Future.

Big Saving in Many Manners Seen in New Plan.

Seek to Move Forward Date of Tariff Reduction.

Southland millers and farmers view with elation the new rate of 40 cents a hundred on flour for export to Europe, via the Gulf ports, which has been established by the Southern Pacific at the request of the food administration. The old rate was 45 cents to Galveston and 70 cents to New Orleans. The new schedule permits a rate of 45 cents on wheat applicable to all points on the Gulf.

G. W. Luce, freight traffic manager of the Southern Pacific, is seeking authority to make the rate on flour earlier than November 19, the statutory time.

As a result of the new rates, millions of bushels of Australian wheat destined for the Allies will be diverted to San Francisco for milling, sent as flour to Gulf ports and there reloaded on steamers bound for Europe clear around the Horn or through the canal. The new rates will save steamers, and as flour will not occupy as much space as wheat, a saving in car as well as trans-Atlantic steamer space will also be effected.

Traffic experts believe that Pacific Coast mills will receive a big impetus from the new rates; the more wheat will be planted here and a surplus of flour milled from Pacific wheat will be available for export. The new rates apply only to wheat and flour when consigned through to foreign destinations.

## MANY FOREIGNERS BUY LIBERTY BONDS.

IN HEART OF THE WOODS MEN ASSIST THE LOAN.

Greek, Chinese and Japanese Section Hands on Mountainous Portland Division of Railroad Show Their Loyalty to Land of Adoption—Italians Also Assist.

The fire of American patriotism are burning brightly on high mountain peaks and in the heart of the desert. Strange stories are daily coming to light, revealing how Uncle Sam's foster-children are being fust by Liberty Bonds in the melting pot of a common cause.

Not the least of these inspiring stories is told in a matter-of-fact report from Eugene P. L. Burkhalter of the Portland division of the Southern Pacific.

On the summit of the company's Tillamook branch in Oregon, where virgin mountains front the sea, and where the outside world seems a thing apart, twelve Japanese section hands, division of railroad, each subscribed for a \$100 Liberty Bond. They were not much in advance of Greek and Italian section-men, who showed anxiety to assist in return for what America is doing for their native lands.

One foreman of a bridge and building gang on the Southern Pacific's Portland division subscribed \$10,000 in cash, and a conductor came forward with \$500 in cash. Among the Southern Pacific employees who enrolled in the Liberty Loan army was a group of Chinese section hands.

## EXTEND SCHOOL WORK.

Special Instruction in Sociology and Economics is Extended to Intermediate Night Grades.

So popular and profitable have been the special classes on sociology and economics that have been conducted for the past two years in three of the evening high schools that it has now been determined to extend the work to some of the intermediate night schools.

William J. Benson of Chicago, Clark and Harvard universities has been conducting this work in the McKinley-avenue Evening High School and he is now to take up a similar work in the Belvedere night school at East First and Rowan streets and the East Seventh-street school at Seventh near Mill street.

The course in the Belvedere school will be given each Thursday and Tuesday night. The course at the Seventh-street school will be given Friday and Monday nights.

## IN SIGNAL CORPS.

Forty Enlisted Men in First Week's Drive to Secure Recruits for Camp Kearny Battalion.

Fifteen men of the forty that were enlisted here last week for the One Hundred and Fifteenth Field Battalion, Signal Corps, will leave for Camp Kearny this evening. The number of recruits should be secured here in one week for such a highly specialized branch of the government service is an unusual feat.

Recruiting headquarters are at No. 603 South Main street. Men who have not yet been called for their draft examinations are eligible for enlistment. The Signal Corps is a communicating, not a fighting, organization and is considered an exceptionally fine branch of the service.

## TO TAKE BODY EAST.

Mr. and Mrs. Horace R. Hyer, No. 1137 South Lake street, will leave today for Fort Madison, Iowa, with the body of Mrs. Hyer's mother, Mrs. Julia A. Hyer, who died at the Hyer home Friday. Mrs. William was the mother of Mrs. Leon P. Hyer of this city and grandmother of Sidney R. Hyer, an attorney of Los Angeles.

# UNITED :: AGAIN :: IN :: OLD :: AGE

Meet in Home Here, After Half Century.

Barney Corn (right) and Barney Rosenthal. Who, in their old age, once more take up strands of interrupted friendship.

THE story of the waiter who was stricken by paralysis, immediately after he had asked his customer how he wanted his eggs cooked, and who, when he met the same customer twenty years later, was greeted with the reply: "Billed, please," fades into insignificance when compared with the true story of Barney Corn and Barney Rosenthal, two members of the Hebrew Sheltering Home, No. 131 South Boyle avenue.

Fifty-five years ago Rosenthal, meeting his friend Corn in Chicago, said: "I'm in a hurry now—have no time to talk—but I'll see you again." Yesterday, on Boyle avenue, Rosenthal looked into his old friend's eyes and said, "Well, I've kept my promise; how have you been since we parted?"

Rosenthal and Corn were boyhood friends in New York, sixty-three years ago. They went to school together, played and fought together and shared everything together, excepting sweethearts, which explains why they fought together. They became separated when Corn went to Chicago to learn the tailor's trade, an occupation which his friend was learning in New York. Eight years later Rosenthal took a trip to Chicago and accidentally met Corn on the street. The two friends stopped and talked a few minutes, but both being very busy they soon parted. Rosenthal remarking, "I'll see you again."

The next day Rosenthal left Chicago for the West and for nearly half a century was a civilian tailor in the army, both in California and Alaska. Corn remained in the East and was a tailor with the eastern divisions of the United States Army during the sixties.

Finally Corn also drifted West and a month ago took up his abode in the Hebrew Sheltering Home on Boyle avenue. Last week Rosenthal arrived from Alaska and, as he was without funds and suffering from a bruised foot, he applied at the home for shelter. The meeting yesterday and shared everything together, excepting sweethearts, which explains why they fought together. They became separated when Corn went to Chicago to learn the tailor's trade, an occupation which his friend was learning in New York. Eight years later Rosenthal took a trip to Chicago and accidentally met Corn on the street. The two friends stopped and talked a few minutes, but both being very busy they soon parted. Rosenthal remarking, "I'll see you again."

# ASK THAT FOOD CARDS BE HELD.

Campaign Manager Requests Aid to Smooth Work.

Pledges Spread Promiscuously may do Damage.

Movement for Conservation of Eatables Starts Today.

Churches, clubs and organizations in Los Angeles receiving pledge cards from San Francisco for distribution in the food pledge campaign, which begins today, are requested by Charles H. Langmuir, campaign manager, not to distribute them.

"We do not want these cards turned loose," said Mr. Langmuir yesterday. "We have thoroughly organized our city into thirty-six precincts and we have 8000 women who will make a house-to-house canvass to secure pledges."

"In San Francisco they are handling their campaign in a different manner, and the organization there has been sending out pledges to Los Angeles churches and clubs, asking them to distribute these petitions among their members."

"Such a system is directly opposite to what we are working for, and if it is put into effect it will disrupt our machinery."

"Our women are anxious to clean up their own districts, and daily get-together meetings will be held, at which time full reports of the number of pledges received will be tabulated."

"We want the pastors, the club workers and others to impress upon the public the necessity of signing these pledges when the women call. 'While we were the last city in the country to organize, I am willing to wager that we will be the first one to fill our quota of pledges.'"

## MAY PROVE FATAL.

Man Shot for Alleged Interference in Family Affairs of Friends Is in Serious Condition.

The condition of E. Perez, a Mexican laborer, who was shot through the left breast yesterday morning by Jose Lopez, a fellow-countryman, was reported at the County Hospital yesterday as being serious. The man is expected to die before morning.

Lopez, it is said, shot Perez with a large-calibered revolver which he later hid. The assault, the police say, was caused by the interference of Perez in the family affairs of Lopez. The latter was arrested after a struggle, by Sgt. Cahill and Officers Learnahan and Lucas, at Elmyra and Main streets, a block away from the shooting, which occurred at Leroy and Main streets.

An attempt to secure details of the affair, from Mrs. Lopez, who is said to have witnessed the fight, was unsuccessful. Perez was in no condition yesterday to give details of the shooting to the police. Lopez is being held on a charge of assault with a deadly weapon.

## SAFE IS CRACKED.

Robber Makes Screen of Burlap and Loots Strong Box of a Branch Postoffice.

An amateur crackman yesterday morning blew open the safe of W. H. Onions of No. 3721 Stephenson avenue, who conducts a hardware store and Postoffice Station No. 37, and secured \$300; \$150 of the money belonged to the government and the remainder was the property of Mr. Onions. The robbery was discovered by Mr. Onions when he visited his store for the purpose of turning off the lights, which he leaves burning all night.

The police say one man committed the crime. He made a screen of burlap to shield his operations from the eyes of pedestrians, then drilled a small hole in the safe door near the lock, and poured in a considerable quantity of nitro-glycerin. The charge was so heavy that the safe was completely wrecked.

Detectives Carl Williams and M. F. McCarron, of the Boyle Heights division were detailed to the case.

## TO HELP COMRADES.

Former Canadian Soldier Assists Fund to Buy Christmas Gifts for Southland Samnites.

The Yuletide fund to buy gifts for the soldiers at Christmas time will receive the co-operation of a man who has seen more than a year of active service on the European battlefields. He is R. R. Lockhart, formerly with the Canadian Engineers, first Canadian contingent. Mr. Lockhart returned from the trenches a year ago after having seen service. He has been appointed a member of the committee at Van Nuys.

A minstrel show will be given by the committee early in November, according to Mr. Lockhart, the proceeds of which will be directed to the fund.

A big demonstration will be held tonight at Riverside in the interests of the fund. Mayor Oscar Ford, Albert Ford and Robert L. Bettner are in charge.

Nine boxing bouts have been arranged for the affair, which will be given at the Homestead Athletic Club on November 9. Members of the fire department will sell tickets to the affair.

"What I work for, I must pray for. So, recognizing the weakness of my judgment, and willing that if by any chance my cause should be wrong, it be overruled, I give myself in endeavor of thought, work and prayer to the holy cause of the Stars and Stripes."

ATTRACTS ATTENTION. Theodore Calderon, a Mexican laborer, fired several shots in the air early yesterday morning at Jackson and Vine streets, and, as a result, is held in Central Police Station on a charge of carrying concealed weapons. He was arrested by Police Lieutenant Johnson and Detectives Shand and Frank James.

Services Yesterday.

THE PREACHERS

GO INTO THE HIGHWAY HEDGES SEEKING SINNERS. By the Faithful Report. A wide range of thought was included in the sermons which were preached by Los Angeles preachers yesterday. Dr. Wallace Williams, pastor of the First Congregational Church, said that we have a definite plan of God according to our merits. Dr. Wilbur L. Y. Davis, pastor of the First Baptist Church, said that "Crown" clothes occupy the throne. Rev. Tirose remarked that the intention with which we are to be paved are not as good as the intention with which we are to be paved. Rev. Herbert B. brought his congregation to the attention of the fact that "the Lord is praying the Lord's prayer" and the Devil's ticket.

 news credited to it or not otherwise cred-  
 ited in this paper and also the local news  
 published herein.

**THE BRIGHT LINE.**  
 One thing grows more and more ap-  
 parent: no other street in Los Angeles will  
 ever be Broadway. Paste this up and chalk  
 it down.

**ONLY PAIR.**  
 The Postmaster-General has issued in-  
 structions that any news or comment on  
 the war printed by alien newspapers must  
 now be printed in English. That is not  
 intended as a censorship of legitimate  
 news; it is merely a protection to the En-  
 glish reading world against the possible  
 translation of literature that might otherwise  
 find its way to German sympathizers.

**DOES HE MEAN US?**  
 The president of the Association of  
 American Secretaries of State advocates  
 the burning of all existing laws in States  
 that are burdened with obsolete and useless  
 statutes and starting out with a clean slate  
 upon which may be written new and sense-  
 able laws. He is hitting at a particular  
 State bounded on the west by the Pacific  
 Ocean, on the south by Lower California,  
 on the north by Oregon and on the east by  
 Arizona and Nevada?

**THE SHOW-DOWN.**  
 Germany has given up hope for a war  
 between the United States and Japan. Ger-  
 many has been playing a fairly clever, but  
 though a dishonest, game; but she has  
 drawn the cards she expected. The stakes  
 are against her, as they always are against  
 the crooked player. Germany is a very  
 good bluffer, but with so many experts in  
 the game, she doesn't stand a chance with  
 her loss of luck. The show-down will show  
 the Kaiser up for what he is.

**FOR OUR MOTHERS.**  
 The red tape of army discipline was  
 recently set aside at Camp Lewis in order  
 to allow a young soldier to visit his dying  
 mother in Los Angeles. It is for the free-  
 dom of mothers in every land that the Al-  
 lied armies are now in the field to put an  
 end to the brutal system of government that  
 respects neither mothers nor maidens and  
 which, if left unmolested, would destroy the  
 innocence of childhood everywhere and  
 make slaves of every free man on earth.

**PERSONAL RESPONSIBILITY.**  
 The brother of the assassin of McKin-  
 ley has purchased \$2000 worth of Liberty  
 Bonds. Here was a case in which two  
 brothers had an equal chance in a free coun-  
 try to make something of themselves, but  
 they were brothers by blood only and not  
 brothers in spirit. One chose the way of  
 life and the other the road that leads to  
 death of body, mind and soul. One tried to  
 destroy the very government that gave him  
 liberty, while the other is working to pre-  
 serve that government. It is not environ-  
 ment nor heredity that is responsible for  
 the conduct of the individual. It is the atti-  
 tude of the individual toward life and his  
 fellow man that tends to either develop char-  
 acter or to drag him down until his name is  
 a byword and a hissing wherever it is  
 spoken.

**NEED A SHOCK.**  
 After having been blind for many years  
 a citizen of San Rafael had his sight re-  
 stored when he accidentally fell forty feet  
 from the roof of his house. This is not the  
 first case of the kind on record. History  
 records many instances in which the sight,  
 hearing or sanity of persons has been re-  
 stored to them following a severe shock.  
 Paul was made blind by a sudden paralytic  
 stroke when he was on his way to Damas-  
 cus to persecute the Christians, but when  
 he recovered his sight he could see better  
 than ever and his mind was rendered clear-  
 er than before, enabling him to employ the  
 most profound logic that ever fell from the  
 lips of man in order to prove the truth and  
 the advantages of the religion which was to  
 spread its light over the whole world. One  
 cannot help wondering if there is not some  
 sort of shock that would restore the spiri-  
 tual sight of the pacifists. Perhaps an in-  
 vasion by the blood-maddened German rape  
 bands might bring the pacifists to their  
 senses—perhaps!

**NATURE'S WAY.**  
 People often pray for special favors at  
 the hand of Providence without thought of  
 rendering any service to the Almighty in  
 return for what they ask. Such prayers are  
 the limit of folly. It does indeed seem pos-  
 sible to temporarily unbalance the system  
 of things and to obtain for oneself some  
 special good, but there is no way to escape  
 paying for everything one gets through  
 prayer or work or crime. The scales of na-  
 ture are evenly balanced, the universal laws  
 are co-existent with God himself and in-  
 finite wisdom and power cannot demonstrate  
 outside of those laws. The thoughts of men  
 are as amenable to the law as are the stars  
 in their courses or as the ball that is thrown  
 into the air and which descends according  
 to the law of gravitation. "Things refuse to  
 be mismanaged long." Nature will not al-  
 low a few plants and trees to absorb all  
 the strength in the earth's soil. She must  
 have millions of plants and millions of  
 trees. Neither will the moral law permit a  
 few men to govern the world. And that is  
 why kingdoms must give way to democ-  
 racies.

## THE LOYALTY OF "BIG BUSINESS."

The giant task of raising Los Angeles and Southern California's quota of the second Liberty Loan has been successfully com-  
 plished and the community at large is  
 to be congratulated upon its prompt and  
 generous response to the nation's call for  
 money with which to prosecute the war  
 against the Kaiser and his minions.

In this connection it is but just to give  
 credit, and a generous measure of praise  
 to the patriotic men and women who so  
 loyally and with such splendid energy and  
 intelligence have labored night and day for  
 the past month in order to make possible  
 this magnificent mobilization of the South-  
 land's finances.

Who are these men and women that have  
 given so unselfishly, not only of their ma-  
 terial substance, but also of their very  
 selves? They are the leaders in finance, in  
 industry and in the professions. Not a man  
 or woman who worked so tirelessly in this  
 great enterprise but whose time is in de-  
 mand every waking hour of the day for the  
 successful conduct of personal affairs.  
 Bankers, merchants, manufacturers, heads  
 of the great public service corporations and  
 railways and street car companies and  
 power and light concerns and of numerous  
 other great businesses. Lawyers, doctors  
 and educators. Busy, successful men and  
 women all. But when the call to service of  
 their country came they one and all laid  
 aside their own business and got into the  
 harness for the common good.

For weeks before the campaign opened  
 these patriotic men and women held meet-  
 ings that lasted long into the night and dis-  
 cussed plans and devised ways and means  
 that would insure the success of the great  
 loan. The sum allotted to Southern Califor-  
 nia was an enormous one, a minimum of  
 \$4,000,000 and a maximum of \$9,000,000.  
 But huge as the sum and mighty as the task,  
 these splendid men and women bent their  
 energies to its accomplishment and when  
 the hands of the clock reached the midnight  
 hour they had the supreme satisfaction of  
 knowing that their work was well done.

Not only in Los Angeles and Southern  
 California but all over this broad land it  
 has been the captains of industry, leaders  
 of finance, big merchants and professional  
 men who have made possible the tremen-  
 dous success that has crowned the govern-  
 ment's second Liberty Loan. Hundreds of  
 men are today laboring long hours in the  
 various branches of the government service  
 doing the big tasks that call for brains, skill  
 and experience and they are doing this  
 work absolutely without compensation—for  
 they are volunteers all and glad of the op-  
 portunity to serve.

In the face of these great facts the  
 nasty Hearst papers are pillorying many  
 of these men and attempting to hold them up  
 to public scorn and contumely by delib-  
 erately misrepresenting their motives and  
 charging that some of them are "proffers."  
 This charge is unfair, unjust and vicious,  
 and the only reason that can be assigned  
 for the attack is that the Hearst sheets are  
 trying to divert the public's attention from  
 their diabolical utterances and from the trick-  
 ery of Bolo Pasha, Jeremiah O'Leary and  
 Von Bernstorff and his crew. This attack  
 will fail. The men who have made the suc-  
 cess of the Liberty Loan possible cannot be  
 injured; their loyalty and patriotism speak  
 for itself in clear tones. The exact char-  
 acter of the traducer of these patriots is  
 clearly shown by the tactics he has em-  
 ployed to discourage the great Americans  
 who are carrying on the war.

The success that has crowned the efforts  
 of these patriots in behalf of the Liberty  
 Loan is all the reward they ask. Every true  
 American heart is uplifted by the result, for  
 though it was a foregone conclusion that  
 the loan would be subscribed the seeming  
 apathy of many of our citizens was a men-  
 ace to our own State. That this apathy was  
 apparent rather than real has been amply  
 proven. We of Southern California may  
 not have been as fully alive to the demands  
 of our country's entry into the war as have  
 been every workshop and factory has been  
 humming with war activity for months; but  
 when an issue involving the honor and the  
 welfare of the nation was placed squarely  
 before our people, the response was quick  
 and generous. It has been said that the  
 one cause of winning this war and so of bring-  
 ing America to humiliation and defeat lies  
 in the selfishness and indifference of the  
 American people. The way in which the  
 citizens of our own and every other State  
 have responded to the President's call for  
 the prompt and decisive financing of the  
 second Liberty Loan removes from the in-  
 ternal enemies of the nation their last hold-  
 out.

Now that the money is made available to  
 the government for the victorious and effi-  
 cient prosecution of the war, now that every  
 man and woman from the Atlantic to the  
 Pacific and from the Canadian boundary to  
 the southernmost limits of the United  
 States has been made to realize the grim  
 nature of the struggle before us, now that  
 we have shown the world what America  
 can and will do in order to achieve that  
 victory which is necessary for the safety of  
 democracy, we may expect an even higher  
 optimism and more fervent consecration to  
 liberty both at home and in the nations  
 bound to us in a common cause.

The success of the loan carries with it  
 the doom of the Kaiser's ambitions. How-  
 ever perverted the account of America's  
 grim preparations to achieve a lasting peace  
 through a decisive victory may be, when it  
 reaches Germany, the leaders over there  
 will know the truth and so cannot but lose  
 hope of ever accomplishing the dark pur-  
 pose with which they entered the war.  
 Hopeless in their specious plan of making  
 America pay the expenses of the war through  
 a colossal indemnity? Fallen to ruins the  
 project of forcing a peace by abandon-  
 ment of the Monroe Doctrine and so of open-  
 ly and victoriously proceeding to colonize  
 South America and dominating Mexico? Obviously untenable the declared purpose  
 of retaining such a hold on Belgium as to  
 make that ravished nation a hand-maiden  
 of the German Kaiser.

**BIGHEADEDNESS.**  
 German "kultur" is German megaloma-  
 nia. The truth is—and we may as well  
 face it—that the German people as well as  
 German officials are obsessed with the idea  
 that the Prussian army is invincible. The  
 only reply to be made to their statements  
 of "what they want" is the reply of the  
 actor Herma in the play, "What they want  
 —a don't road hidin'."

## "Durn Hoover!"

### CONSPIRING AGAINST PRODUCERS.

California industry is suffering and, in  
 a lesser degree, the cause of the Allies is  
 suffering by reason of labor union domina-  
 tion in our State government and its at-  
 tacks on producers. It has been estimated  
 that \$30,000,000 worth of agricultural prod-  
 ucts were wanted in California this year  
 because laborers could not be secured to  
 tend and harvest growing crops. Seeking  
 to prevent a similar loss next year, the Cal-  
 ifornia Fruit Exchange has adopted resolu-  
 tions calling attention to the shortage of  
 labor in California and asking Congress and  
 the Federal Food Control Board for relief.

One section of the resolution recited that:  
 "The membership of this organization, com-  
 posed of twenty-five local organizations dis-  
 tributed throughout the State from Sacra-  
 mento Valley of the north to Imperial Val-  
 ley on the south, has experienced unprece-  
 dented difficulty during the present season  
 in securing the farm labor necessary to the  
 production and the marketing of their di-  
 verse farm products, which include practi-  
 cally every article of food entering into the  
 life of the nation."

These resolutions were forwarded to the  
 offices of the Federal Food Administration  
 in Washington, where they met a decidedly  
 friendly reception. J. W. Sullivan, who signs  
 himself "Head," Division, Interests of Labor  
 and the Consumer, United States Food Ad-  
 ministration, has written a surprising re-  
 sponse to the California Fruit Exchange in  
 which he asserts in turn that:

With respect to an alleged shortage  
 of labor, for example, there is little  
 more than assertion. "In the second  
 paragraph of the preamble, mention is  
 made of the 'unprecedented difficulty' during  
 the present season in securing the farm  
 labor necessary to the production and mar-  
 keting of diverse farm products. Here the  
 writers could not have had before them the  
 official statement of John McLaughlin, Labor  
 Commissioner of California, issued last  
 June, in which he said that the supply  
 of farm labor in the State was sufficient,  
 'merely needing organization to meet the  
 requirements of gathering the crops.'"

Then follows a quotation from a report of  
 Simon J. Lubin, chairman of the State Immi-  
 gration and Housing Commission, to the  
 effect that the fault lies almost wholly with  
 the farmer. Mr. Sullivan quotes Mr. Lubin  
 as saying that the difficulties in securing  
 an adequate supply are, "First, inadequate  
 wages; second, poor labor camp conditions;  
 third, a lack of a central clearinghouse for  
 labor intelligence." Mr. Sullivan then says  
 that "One may believe that the outlook for  
 the next year is good, indeed very good if the  
 operating farmers will but pay necessary at-  
 tention to systematizing the supply by  
 means of public employment agencies or  
 other adequate forms of management."

So the Federal Food Administration Board  
 has discovered that no shortage of labor  
 exists in California—that the supply of labor  
 is fully adequate to the demand. All that  
 is necessary is to "systematize the supply."  
 This statement follows closely the lines of  
 a report made by Labor Commissioner McLaughlin, whose suggestion for a  
 "systematization of the supply" was that  
 the workers should be organized into labor  
 unions and that the farmers should treat  
 with the walking delegates when seeking  
 farm labor. At the very time when Labor  
 Commissioner McLaughlin was making this  
 report there were thousands of acres of  
 ripened wheat rotting in the fields in Cal-  
 ifornia because laborers could not be secured  
 for the harvest. At that time beet growers  
 all over the State were making frantic ap-  
 peals for labor for thinning their beets, and  
 laborers were not to be had at any price.  
 The sugar crop in Southern California was  
 not more than half what it would have been  
 if laborers could have been secured for cul-  
 tivation and the harvest.

Labor Commissioner McLaughlin's report  
 on the labor situation is similar to that  
 which he made a year ago when the Gov-  
 ernor, Johnson, sent him into Shasta county  
 to give a report on a strike in which riot-  
 ous unionists had taken possession of the

mine and the Sheriff was calling for State  
 troops. McLaughlin reported that the whole  
 trouble was occasioned by the failure of the  
 mine owners to accede to the demands of  
 the Miners' Union and said that a recogni-  
 tion of the union and granting the demands  
 of the strikers would end the trouble at  
 once. It is superfluous to add that Mc-  
 Laughlin is by profession a walking dele-  
 gate, that he was made Labor Commissioner  
 in return for his part in delivering the labor  
 union vote of San Francisco to Gov. John-  
 son.

About the same time that McLaughlin  
 made the report that the labor supply in  
 California was fully adequate another so-  
 called San Francisco walking delegate,  
 Walter McArthur, and said that a recogni-  
 tion of the union and granting the demands  
 of the strikers would end the trouble at  
 once. It is superfluous to add that Mc-  
 Laughlin is by profession a walking dele-  
 gate, that he was made Labor Commissioner  
 in return for his part in delivering the labor  
 union vote of San Francisco to Gov. John-  
 son.

Any serious attempt to set aside the  
 Chinese exclusion law would create  
 open war throughout the entire West.  
 The advocates of Chinese labor should be  
 warned that one war at a time is  
 enough. The people of the West were  
 opposed to participation by the United  
 States in the world war. A re-  
 vival of the Chinese labor question  
 would neutralize the West. In  
 the fight against collectivism the West  
 would have no time to fight Prussian-  
 ism; the former is more important be-  
 cause more immediate and concrete.

McLaughlin's report on the labor situa-  
 tion was plainly made with the intent of  
 minimizing the necessity for extra labor  
 in California as a part of the labor union  
 program of increased domination. But  
 by reason of that report and the importance  
 attached to it in Washington, thousands of  
 acres of tillable land are lying idle, hun-  
 dreds of farmers were almost ruined finan-  
 cially by reason of planting more than a  
 year ago than they could harvest; and the ag-  
 ricultural production of the State is at least  
 40 per cent. less than it would be if the sup-  
 ply of labor was equal to the demand.

It seems almost incredible that the Cal-  
 ifornia situation should be so seriously mis-  
 understood in Washington. Mr. Sullivan  
 seems under the impression that there are  
 slackers in the California Fruit Exchange;  
 in his communication to that body he goes  
 on to say:

It would be interesting to know the  
 origin of the resolutions passed by your  
 organization. In two other cases com-  
 ing under observation at Washington,  
 resolutions, expressed in somewhat simi-  
 lar language, petitioning for exemp-  
 tion of farmers, have attracted the at-  
 tention of the Department of Justice.  
 Pacific and pro-Germanism may be  
 looked for as operating behind the  
 scenes and in unexpected quarters  
 and misleading loyal, innocent victims  
 of conspiracy.

From the tenor of the Sullivan letter one  
 cannot avoid the feeling that the Depart-  
 ment of Food Administration in Washing-  
 ton is grossly misinformed as to agricul-  
 tural conditions in California. Patriotism  
 was the dominant feature of the resolutions  
 adopted by the California Fruit Exchange.  
 The members of the twenty-five branch ex-  
 changes reported that they had suffered  
 losses totaling many millions of dollars by  
 reason of the impossibility to secure ade-  
 quate labor. The farmers are able to get  
 along on reduced prices, but the prices are  
 so high that they need not suffer. But the  
 farmers know that the question of supply-  
 ing foodstuffs for the Allies is a serious one.  
 The farmers of America have land which  
 will produce at least \$75,000,000 worth of  
 agricultural products next year than it pro-  
 duced last year, provided the labor is avail-  
 able. Does the Federal government desire  
 to champion the cause of Hearst and the  
 labor unions and aid in limiting production?

A report just made to Washington indi-  
 cates that Mt. Katmai, in Alaska, is the  
 greatest volcano in the world. A survey  
 of an exploration party shows that the  
 crater is more than nine miles in circum-  
 ference and 3600 feet deep. One of its  
 features is a mud river fourteen miles long.  
 The report is made by Prof. Robert F.  
 Griggs, an Ohio man, and he may be a bit  
 enthusiastic.

## THE LITTLE SOLDIER'S BIG ORDER.

BY MARY MERRICK SMALE.

Say! Mister Man, "Help Wanted," can you be deaf and dumb,  
 And keep a soldier's secret till the holidays have come?  
 I've got to buy a Grandma before Christmas and New Year;  
 If I do my shopping early, do you think you'll have her here?

My papa's gone away to war; he said: "Don't cry, my son;  
 He'll be my soldier and home guard until the fighting's done."  
 I'm trying hard to do my bit along with all the rest,  
 Though many tears I mustn't cry are aching in my breast.

My mama wept, I reckon, until all her tears were spent;  
 She'll never be a soldier, for she cried so when he went.  
 I used to have a Grandma; when I got hurt at play,  
 She'd put her arms around me till she'd talked the pain away.

Then she'd sit there in the evening with her Bible on her knee,  
 And knit and talk about the war to papa and to me.  
 She'd say: "The God of battles, with His ways past finding out,  
 Will bring us peace in His own time; He knows what He's about."

Now, she's gone away to heaven and I'm sure we miss her more,  
 Since my papa went to Europe than we ever did before.  
 My mama knits a sock a week; I've heard my Grandma say,  
 The girls in her time were so smart, they'd knit a pair a day.

So, Mister Man, "Help Wanted," if you have one anywhere,  
 With a smile like ripened sunbeams and a lot of snowy hair,  
 Then don't forget her glasses, for you know how it would vex  
 Any darling, kind old lady if she couldn't find her specs.

Now, here's a dollar that I earned by being a "good as gold,"  
 You'll put it on a card upon her dress, of course, and mark it "Sold."  
 Then wrap her up at Christmas time with flowers and furs and lace,  
 And keep her up to 53, I'm sure you know the place.

No! "Bring the change," and buy a pipe or something nice for men,  
 I'll never want for money when my Grandma comes again.

**Cutting Prices.**  
 "Ere, 'ave 'em at tuppence,"  
 growled the butcher.  
 "It's too much," said the woman.  
 "Aye, 'em at a penny, then."  
 Still the woman hesitated. A look  
 of disgust came over the butcher's  
 face.  
 "Still too much?" he snapped.  
 "Ere, 'ave 'em at a penny, then."  
 Still the woman hesitated. A look  
 of disgust came over the butcher's  
 face.  
 "Still too much?" he snapped.  
 "Ere, 'ave 'em at a penny, then."  
 Still the woman hesitated. A look  
 of disgust came over the butcher's  
 face.

**She Obeyed Orders.**  
 Some time ago, before we all got  
 so dreadfully economical, a mistress  
 told her new Scandinavian kitchen  
 girl never to leave in the refrig-  
 erator anything old or left over, but to  
 keep it clean and fresh by throwing  
 away the old things every morning.  
 On the day following, the mistress  
 happened to look out of the window  
 and she noticed something peculiar  
 in the yard. Calling Hilda she  
 asked: "What is that and how did  
 it get there?"  
 "That's the old ice, ma'am, left  
 from yesterday," answered Hilda.  
 "I threw it away lak you tol' me."  
 [Boston Transcript.]

**Censored.**  
 "I see a lot of wine glasses on  
 our table, but the menu is mum on  
 the subject."  
 "Cheer up, old man, the menu you  
 have there is to be put into your  
 pocket, where your wife will be sure  
 to find it."—[St. Louis Globe-Democrat.]

**Wagnerian Music.**  
 "Henrietta," said Mr. Meekum in  
 a burst of sentiment, "your voice is  
 always music to my ears."  
 "When when I am vexed, Leon-  
 da!"  
 "Yes, even then. A trifle Wagner-  
 ian, perhaps, but still music."  
 [Washington Star.]

**A Hard Pull.**  
 "Dauber had a frightful night-  
 mare the other night."  
 "What was it?"  
 "He imagined that he was row-  
 ing one of the boats he draws in  
 his picture of lakes and rivers."  
 [Pearson's Weekly.]

**Nothing New.**  
 "If you go first, you'll wait for me  
 on the other shore, won't you?"  
 questioned the fond wife.  
 "I suppose so," returned her  
 husband, "but I shall never wait  
 anywhere yet without having  
 to wait for you."—[St. Paul Pioneer  
 Press.]

**Insurmountable.**  
 Master: Your daughter is a won-  
 derful dancer, but for two things.  
 Father (reluctant): Yes, I think so,  
 too, but what are the two things?  
 "Her feet."—[Answers.]

**A Psychological Benefit.**  
 Hibbs: I suppose you derived  
 both pleasure and profit from the  
 garden you had this summer.  
 Dibbs: Not exactly; but it leaves  
 me more contented. It makes the  
 cost of the vegetables in the mar-  
 ket seem small by comparison.  
 [Boston Transcript.]

**A Diner's Mistake.**  
 "Here, waiter, this plate is  
 damp!" said a traveler, who was  
 dining at a cheap restaurant.  
 "Ah," said the waiter, "that's  
 your soup. We serve only small  
 portions in wartime."—[American  
 Boy.]

**Deliberately Done.**  
 "Don't you contradict yourself in  
 some of your speeches?"  
 "Of course," said Senator Sor-  
 ghum. "When I have occasion to  
 contradict myself, I very carefully  
 observe which side of the propo-  
 sition gets most applause and govern  
 my future opinions accordingly."  
 [Washington Star.]

**A Sure Way.**  
 "Old Miltuna can't please his  
 young wife any way he tries, and  
 yet he lives only for her."  
 "Then let him try dying for her."  
 [Baltimore American.]

**Always Two Sides.**  
 "I told my boss everything had  
 gone up and I wanted my pay  
 raised."  
 "How did it work?"  
 "He said he was just about to say  
 to me that as his living was costing  
 him more, my wages would have to  
 come down."—[Boston Transcript.]

**He's Safe.**  
 "How is it ye've never married,  
 Norah?"  
 "Giong wid ye, Mike! Shure the  
 man I'd marry ain't been born yet,  
 an' his mother's dead."—[Boston  
 Transcript.]

**Couldn't be Worse.**  
 "Is our new cook extravagant?"  
 "Fearfully so; she couldn't be any  
 worse if she was one of my daugh-  
 ters."—[Life.]

## PEN POINTS

BY THE STAFF.

On to Berlin!

We've all got to get it.

Signs of an early fall in Germany.

Germany will never take 100,000  
 American prisoners.

On account of the high cost of  
 eggs we see but little of Mr. Mac in  
 our midst.

In straining beans are the  
 interest of war-economy.

These are the days when the  
 pipes a lar, and the plumber has a  
 pipe, and we may be happy yet, you  
 bet.

At Camp Kearny soldiers are  
 required to put their full names on  
 their shirt fronts. The lady  
 finds this very convenient.

That must have been hot air  
 we understand, prevalent at the  
 capital of Argentina. It was  
 Buenos Aires for the Kaiser.

Reports from Russia indicate  
 the Kurds are having the  
 whipped out of them. It seems  
 to be a whay the Kurds have.

We long for the old-fashioned  
 woman who was not afraid to  
 potatoes with the jacket on her  
 be laughed at by the neighbors.

If the average man took  
 trouble with other things as he  
 with his horse supporters, the  
 business magnate he would  
 be the member of the

Russia can never be ruled  
 by a dictator, but only one  
 is needed. There seems to be  
 a lot of dictators looking for a

It is now claimed that when  
 Thompson of Chicago was  
 man he blew the trombone  
 band. He ought to try to  
 that charge.

A party of Congressmen  
 en route for Europe, but  
 several we might mention  
 to be in the party when they  
 the string line.

There is nothing that makes  
 or so pesky mad as to see  
 cleaning up the house after  
 father come in and not  
 pay her a compliment.

In England motoring for  
 is forbidden in order to  
 supply of gasoline; but in  
 America there are no sur-  
 vival of such sacrifice.

We can remember the  
 it was a sign of a lack of  
 to go into a restaurant  
 ham and eggs. If you

We've all got to get in.  
Signs of an early fall in Germany.  
Germany will never take 100,000 American prisoners.  
On account of the high cost of eggs we see but little of Mr. Nog in our midst.  
In stringing beans save the string as the interest of war-enforced economy.  
These are the days when the post pipes a lay, and the plumber lays a pipe, and we may be happy yet, you see.  
At Camp Kearny soldiers are required to put their full names on their shirt fronts. The lady visitors and this very convenient.  
That must have been hot air that we understand prevailed at the capital of Argentina. It was certainly a breeze from the Kaiser.  
Reports from Russia indicate that the Kurds are having the war shipped out of them. It seems to be a war they can't handle.  
If the average man took as much trouble with other things as he does with his nose supporters, what a business manager he would make!  
Russia can never be ruled except by a dictator, but only one at a time. There is no room for a job of dictators looking for a place.  
It is now claimed that when Mayor Thompson of Chicago was a young man he blew the trombone in the band. He ought to try to blow that charge.  
A party of Congressmen is now en route for Europe, but they are several who mention they will be in the party when they visit the King line.  
There is nothing that makes nobles so peevish as to be asked to pay for the house they are coming in to, and not to be asked to pay a compliment.  
In England motorists for pleasure are forbidden in order to conserve the supply of gasoline; but in America there are no such restrictions of such sacrifice.  
We can remember the time when a man of a lack of breeding would go into a restaurant and order meat and eggs. If you do not it is sign that you have the price.  
The last contingent of the United States Army for the first time in the way to American Lake. The town has furnished 370 men. And are likely to be another group.  
Mai-Gen. O'Ryan of New York is a man who is not won by his own things. Wonder what he thinks about a gun in the hands of an American or a "Yankee".  
There is likely to be a short session of Congress beginning on the 21st Monday in December. The district of Columbia Supreme Court is declared the "dry" law constitutional.  
The number of colonels in the service at this time doesn't nearly make up for the loss of the war. Kentucky, California has a lot of them, and some are all wool and of requisite width.  
Hattling Bob La Follette are the newspapers have a new way of making things. Wonder what he thinks about a gun in the hands of an American or a "Yankee".  
What Ireland needs is such help as the Irish can agree on, and Sinn Feiners will get it when they are as little English rule in Ireland as there is in Canada.  
President Wilson says: "We must take the word of the present man ruler." Which is the same as calling him a liar, but the language is all dressed up in a big coat, white gloves and a play on words.  
There are not enough houses in California to care for the thousands of clerks who have been summoned for duty there on account of the war and almost every man in the town is now entertaining what is known as "paying guests".  
It is announced that Gen. Hays will continue his drive on the western front during the entire winter. Gen. George B. McClellan is the only commander of whom we have any knowledge who would not move on the enemy with the condition of the road.  
The war against "proletarianism" is new thing. Price regulation is the form of something very new. Greece, Rome, the Bourgeoisie, all practiced it.  
The law of supply and demand has never been changed in its age.  
Cincinnati the local school is reviving the school system of the idea of removing the students to the mountains to study in the mountains the form of government.  
The good work and other benefits should be enacted in the form of patriotic education.  
At a party person, Dan Johnson, president of the American Federation of Labor, has a statement that he is in the war front in Europe. He says: others have been there is nothing in it. As a matter of fact, he is in the war front from Ohio, we insist that he should mail in his statement.

**NAHEIM MAKES KAISER WORRY.**  
German Population Largely Contributed to the Local Loan Success.  
(LOCAL CORRESPONDENCE.)  
ANAHEIM, Oct. 28.—After a strenuous week to raise the maximum the Liberty Loan committee last night wired the Secretary of the Treasury at Washington the following message:  
"Anaheim, the mother colony of Southern California, settled in 1850 by a company composed entirely of Germans, and with a population composed largely of Germans and their descendants, subscribed \$408,290 to the second Liberty Loan. This is more than double the minimum allotment. Notify the Kaiser."  
A general celebration, held last night, wound up one of the most successful campaigns ever attempted here. The people of Anaheim number 5183 and it is believed that they have contributed more per capita than any other city in the United States.  
**Change.**  
**WORK AT BEACH IS NEARING END.**  
**PASTOR WILL CHANGE TO LOS ANGELES THURSDAY.**  
(LOCAL CORRESPONDENCE.)  
LONG BEACH, Oct. 28.—Rev. H. H. Walker, pastor of the First Presbyterian Church of Los Angeles, will change to Los Angeles Thursday.  
Body of Salesman Alleged to Have Been Murdered on Desert Will Be Buried Today—Hatcher Who Said "Head Felt Empty" Is Found to Have Had Tumor.

**MUST TURN IT INTO OLD BED.**  
Engineer Submits Report on Colorado River.  
Stream Should Be Sent Down its Ancient Channel.  
Imperial District Directors Call for Estimate.  
(LOCAL CORRESPONDENCE.)  
EL CENTRO, Oct. 28.—Unless the Colorado River is turned into its old channel the next freshet will send its waters northward into the Salton Sea.  
This declaration by Chief Engineer Clark, who has just returned from a surveying expedition in Lower California, startled the directors of the Imperial Irrigation District, at their last meeting. Mr. Clark said the last, unprecedented high water in the Colorado had left a "cone" of sand and silt along the Abasco channel of the river, which was as high as the Sal or Volcano Lake levees, and that, unless the levees were raised six or eight feet, the river turned into its former channel, occupied prior to 1909, it would turn northward into Imperial Valley and empty into the Salton Sink, causing much damage.  
Accompanying his report was an estimate of the amounts required to curb the mischievous river before the January freshets arrive.  
**ESTIMATE OF COST.**  
Mr. Clark finds that to raise the Sal levee and extend the railroad to its end would cost \$114,000, and that the raising of the Volcano Lake levee would entail an expenditure of \$141,000. He estimates the cost of restoration and strengthening the Ockeron levee to throw the river back into its old channel at \$294,486. Mr. Clark expressed a preference for the latter course, as it would certainly prevent floods when high water came.  
A most unusual condition is reported by the engineer. The Abasco channel, now used by the Colorado between Volcano Lake and the Ockeron levee, is bordered by high sand flats, deposited during the high water of early summer, and forming a ridge which will turn flood waters northward into the low ground occupied by the Salton canal. Sal and Volcano Lake levees. It is certain, says Mr. Clark, that unless the river is checked, it will flow through the Salton canal and New River into the Salton Sea, flooding many fertile ranches and causing damage to irrigation structures.  
**MAY CALL ELECTION.**  
The issue of \$150,000 for the raising of the Volcano Lake and Sal levees was included in the bond issue of \$2,500,000 recently voted by the people of Imperial Valley. It is believed that an arrangement can be made whereby this money can be all in turning the river into its old channel. An election may have to be called for the purpose.  
The directors of the district passed a resolution calling upon the engineer to furnish them with all the facts available on the "cone" formed by the river, and a detailed estimate of the work required to send the Colorado on its way to the Gulf in its original channel.  
**Repeats.**  
**BELL RING TWICE BY THE QUAKERS.**  
**WHITTIER AGAIN EXCEEDS ITS MAXIMUM FOR LOAN.**  
Strenuous Efforts of Committee Meet with Gratifying Success. Man Who Served for Nearly Forty Years in Minnesota Offices Dies After Short Illness.  
(LOCAL CORRESPONDENCE.)  
WHITTIER, Oct. 28.—The Liberty Loan Committee, through Mayor Frank W. Wright, chairman, report that Whittier exceeded its maximum quota with a total of \$325,000. The first Liberty Loan Whittier exceeded its quota. Whittier has again "come across with the funds." The maximum quota was reached at 10 per cent. of the local bank deposits, which would make about \$175,000.  
**EDUCATOR PASSES.**  
Edgar George, 65 years old, one of the best-known public school men of the State of Minnesota, died here yesterday after a short illness. Mr. George came here two years ago, after having served thirty-eight years continuously as superintendent of schools in three cities, St. Peter, Blue Earth and Northfield. He was prominent in Minnesota. One of the men who succeeded in putting through a State pension law for teachers, and it is a coincidence that he was the first beneficiary thereunder, having been on a retirement salary for the past two years. This honor came to him from the fact that at the time of his retirement he was the senior school man of the State.  
Mr. George leaves a widow and two daughters. He was a brother of Robert George, well-known financier and citrus grower. The funeral service will be held tomorrow at 2:30 o'clock at the Plymouth Congregational Church.

**WILL VOTE ON TWO LIQUOR PROPOSALS.**  
(LOCAL CORRESPONDENCE.)  
SANTA MONICA, Oct. 28.—Santa Monica voters will have two liquor ordinances to vote upon at the general municipal election December 4. In addition to the "bone dry" ordinance, there will be a less drastic one calling for the licensing of all liquor selling privileges except that of one bottle house to each 5000 inhabitants. This would permit two of these places in this city. The Dry Committee last night filed a supplementary petition of 234 names calling for an election on this ordinance, the original petition having been insufficient.  
**JUDGE DECIDES CURIOUS QUESTION.**  
(LOCAL CORRESPONDENCE.)  
SANTA ANA, Oct. 28.—By a decision of Superior Judge West, a teacher can withdraw her resignation before it is acted upon. Last May Mrs. Augusta C. Bainbridge, teacher at HaPar, resigned, but soon withdrew her resignation. The district is a union district with six trustees, three of whom wanted Mrs. Bainbridge to stay and three wanted her to go. When school opened in September, she was on hand to teach.  
Leonard G. Swales brought an injunction suit to prevent payment of her salary. Judge West ruled that the teacher was under contract and her employment continued unless that contract was ended, which it never was.  
**FUNERAL TODAY.**  
(LOCAL CORRESPONDENCE.)  
SANTA MONICA, Oct. 28.—After having excited the interest of physicians and surgeons throughout the United States, Beatrice Luella French, 12 years old, died yesterday at her home, No. 1217 Seventh street, from complications caused by extreme curvature of the spine. Funeral services will be held Monday at 2:30 p.m. at the chapel of Broese Bros. & Todd. Burial will be in Woodlawn Cemetery.  
**EXCELLENT SHOWING.**  
(BY A. P. NIGHT WIRE.)  
SAN DIEGO, Oct. 28.—Official announcement was made by the local Liberty Loan Committee that San Diego city and county exceeded the maximum of \$4,855,985 set by the government in the Liberty Loan. Every section of the county made an excellent showing.  
**A LITTLE SHORT.**  
(BY A. P. NIGHT WIRE.)  
FRESNO, Oct. 28.—This city last night reported short of the maximum of \$4,000,000, with a subscription of \$2,566,300. The allotment for the city was \$2,000,000, with a subscription of \$2,510,400.  
**OVER THE MAXIMUM.**  
RIVERSIDE, Oct. 28.—Riverside county over-subscribed its maximum allotment of second Liberty Bonds by \$25,000 and its county investments made the maximum. The city and county's maximum was \$984,000.  
**It's worthy of NOTE**  
that the women folks are beginning to P.B.S. favorable comment on the handsome array of suits and overcoats THAT we are showing for THE men folks.  
The fabrics and STYLES are of uncommon BEAUTY and the prices are BASED on our profit SHARING plan of selling FOR several dollars LESS because for CASH. An inspection of OUR show windows cannot BUT impress one that we HAVE the best looking and THE best tailored ready to wear garments in TOWN. Furthermore, that THE prices we can CANNOT be duplicated ELSEWHERE. That's because we're THE

**PROFIT SHARERS**  
You pay us several DOLLARS less for THESE handsome goods BECAUSE we sell for CASH and we don't SADDLE the other fellow's DEBTS on your SHOULDERS. Here's a corking GOOD overcoat, the REAL THING in style that ought to appeal not only to THE young man, but to HIM who wants to stay YOUNG.

**Oldest Dry Goods Store in Los Angeles**

*Coulter Dry Goods Co.*

**SEVENTH STREET AT OLIVE**

**NOTICE TO CHARGE CUSTOMERS:** All purchases made on and after October 22d appear on bill rendered December 1st.

**Smart Styles for the Woman Who Wears Tailored Suits**

The well-groomed appearance that a strictly tailored suit gives the wearer is one cause for its popularity; and another is, that a tailored suit is always in good taste, no matter what the fashion of the hour may be.

One model, in a high waist effect, is remarkably good for small women and misses; shown in navy serge at \$25.00.

Another favorite comes in navy or black serge, with novelty stitching, and arrowhead in the back; this is also \$25.00.

A model in men's wear navy serge, with stitched strap on the back, running to the waist line, sells at \$32.50; while the same style in navy or black broadcloth, is \$35.00.

Still another variation is shown in men's wear navy serge, deviating from the strictly tailored in that it has a seam and pleats in the jacket's back; this is \$32.50.

And a tailored model that departs from the regulation style in clever fashion, may be had in navy serge, at \$39.50.

(Garment Section; Third Floor)

**A Corset of Real Beauty**

Is the Grecian Treco—and it never goes out of fashion because it emphasizes the best lines of the natural, graceful curves of the figure.

The delicately pliable, yet extremely durable texture of the fabric allows the corset to give with every movement of the body, and the drape of evening gown or severe line of street frocks.

May we fit you with the right Grecian-Treco before you purchase your Fall wardrobe?

(Corset Section; Third Floor)

**Clever Models in "Sassy Jane" Garments**

New ideas from the factory of this versatile young woman, who evolves utility garments that are vastly becoming to anyone who wears them!

**Aprons and Apron Dresses**

Are shown in pretty new colors; the Trench dress—in best quality Scotch plaid gingham—Nile green with pink, coral with blue and brown; heliotrope with Nile green; or in plain heavy suiting in blue, pink and tan—a garment made with long sleeves, wide belt and collar and finished with lots of pearl buttons, at \$3.50. Others at \$2.25 and \$2.50.

**Manufacturer's Sample Petticoats**

\$1.75 Skirts	\$1.25 Skirts	\$1.50 Skirts	\$1.00 Skirts
\$2.50 Skirts	\$1.75 Skirts	\$3.00 Skirts	\$2.00 Skirts
\$3.75 Skirts	\$2.45 Skirts	\$5.00 Skirts	\$3.45 Skirts
\$6.50 Skirts	\$3.05 Skirts	\$7.50 Skirts	\$4.95 Skirts

(House Dresses; Skirts; Third Floor)

**The Vogue for Satin Finds Coulter's Fully Prepared**

And heavy purchases, made months ago, have given us cause for congratulation that we did not delay, and have to pay much higher prices for these. We ask your comparison of qualities—

**Deep, Lustrous Satins In Every Preferred Shade**

40-inch Satin Brilliant	\$3.00
40-inch Satin Charmant	\$3.50
40-inch Satin Charmeuse	\$4.00
45-inch Satin Panné	\$4.50
40-inch Satin de Lyon	\$4.00
40-inch Satin Meteor	\$3.50

No matter whether you want dark, or light or pastel colorings in the foregoing, Coulter's can furnish them.

40-inch Satin Empire—in a most satisfactory range of colors; reg. \$2.50, yard.....\$2.15

33-inch Satin Majestic; reg. \$2.50/yd. \$2.00 (Silks; Second Floor)

**Eight Uncommonly Good Values From Our Linen Section**

Illustrative of what women may expect who wisely make their linen purchases—be they small or large—at the Home of Fine Linens. All sorts of decorative and household linens are constantly in stock at prices impossible with less influential resources.

**Fancy Towels, 45c**  
—bath towels in fancy weaves with pink, gold or blue borders.

**Damask, \$1.25 Yd.**  
—imported linen finished table damask in choice designs; regularly \$1.50 a yd.

**Doyle Lunch Sets, \$3**  
—six of each of 6 and 11-inch doilies with 24-inch center to match; on extra good linen, nicely scalloped.

**Bath Towels, 25c**  
—rib weave; a hundred dozen of these, extra good.

**Luncheon Sets, \$1.95**  
—Japanese luncheon sets in the popular bluebird design; a dozen napkins and cloth to the set.

**Bed Spreads, \$4.85**  
—scalloped, cut corner, fine satin spreads; usually \$6.00 each.

**Bath Towels 22½c**  
—red or white border; good weight.

**Madeira Napkins, \$7.85**  
—ten napkins in new designs; 200 dozen on special sale; buy now for Christmas gifts.

(Linen; Second Floor)

**Your State's Flower On a Handkerchief**

What a dainty remembrance for someone's gift! Narrow hem, delicate hand embroidery on good material—the following list:

Goldenrod (Pennsylvania, Ohio, Missouri, Nebraska, Alabama, South Carolina, Kentucky, Louisiana and Arkansas.)

Apple Blossom (Michigan and Mississippi); Rose (New York and North Dakota); Wild Rose (Iowa); Peach Blossom (Delaware and Georgia); Corn (Indiana); Grape (Oregon and South Dakota); Moccasin (Minnesota); Syringa (Idaho); Cornflower (Texas); Sunflower (Kansas); Poppy (California); Maple Leaf (Canada.) We do not vouch for the authenticity of the flowers of the various States, but we do vouch for the values; 35c handkerchiefs, special, 25c.

(Handkerchiefs; Main Floor)

# Progress of the Southwest's Great Mining Revival—Latest Developments Chronicled Financially

## MINES ACTIVE AT GOLDFIELD.

Faith in District's Future Shown by Work.

Operations of Big Companies are Being Pushed.

War Conditions Affect Output of the Mills.

(SPECIAL CORRESPONDENCE.)

GOLDFIELD (Nev.) Oct. 26.—

Mining operations continue on a substantial scale at many points throughout the Goldfield district, and nearly everywhere with encouraging results. That the faith of the larger operating companies in the future of the district has not been impaired is made evident by the character of development work they are now conducting, which involves sinking at several points to great depths and exploring the main veins throughout extended areas on their deeper levels. Work that is regarded by expert authorities as being fully as important as any ever undertaken in the district is now in progress, involving the exploration of the main veins of the district far below the igneous formations to which work has been confined in the past.

War conditions have affected to an appreciable extent the output of ore and mill products from the Goldfield district, since the high price of copper and silver has flooded the market with ores and products containing these metals and the resulting congestion at the smelters has greatly curtailed the market for other ores, as well as

for mill concentrate. Until recently even small shipments of ore and concentrates found a ready market, but now, owing to the shortage of these products must now await their turn, and often face the necessity of paying heavy demurrage charges on cars, owing to the inability of the smelting companies to handle their product.

GOLDFIELD CONSOLIDATED.

The marked improvement in point of production and mine conditions in the properties of the Consolidated Mines Company, as shown in the report made public last week, has stimulated interest in that company's operations and affords ground for the belief that a larger output will be made in future.

Rapid progress is being made in sinking the deep mine from the 1750-foot level, from which it is planned to explore the Atlanta vein on the 1900 and 2000-foot levels. The mine is now down over fifty feet and at the 1900-foot level a station will be cut and a crosscut will be driven east to the vein. Development work continues on and above the 1800-foot level and is to be started at once on the 600 and 700-foot levels. The discovery of exceedingly rich ore in leached ground in the Atlanta vein, within a few yards of the Red Hill-Florence boundary, is regarded as being of great importance to the latter property and development work will be carried forward by the Red Hill management with the object of picking up the extension of this bonanza ore-shoot in Red Hill ground.

REORGANIZED KEWANAS.

In the new southern workings of the Kewanas mine, many seams of good ore have been exposed and work is now progressing in a highly mineralized zone of great width, yielding low assays in gold, silver and copper. The main southeast crosscut is being continued to reach the hanging wall, while a drift, started some distance back in the crosscut, is being advanced to the south near the center of the great vein, where many good assays have been obtained.

Ore of fairly good grade, accompanied by seams of high-grade material, has been exposed in the new work of the Blue Bell Company on

the Pig claim and in the northern part of the big property. This work is being conducted through the Slimmerone shaft and is in ground formerly worked under lease by the latter company.

A change in the character of the formation exposed by the east crosscut on the 220-foot level of the Crackerjack indicates that the work is now entering the Rabbit Trail vein, which has been its objective. A steady and highly profitable production is being made from the Great Bear mine and work on both main levels in the vein, as well as in the newer raise from the bottom level, has resulted in opening a substantial tonnage of good shipping ore. The new ore body on the 300-foot level has been opened for some fifty feet along the strike of the vein and appears to be of great size and of uniformly good average value.

OUTPUT INCREASES.

Nevada Mill Now Handles More Than 200 Tons of Ore Daily. High-Grade Rock.

(SPECIAL CORRESPONDENCE.)

ROCHESTER (Nev.) Oct. 26.—

The output of the mill of the Rochester Mines Company has been increased to 215 tons daily, with the stamps dropping on some of the best ore ever mined in the property. The north drifts from the 900 level on the Adams vein are exposing high-grade ore, with the vein continuing to maintain its remarkable width and strength. Sinking of the mine from the 900 level is making good progress.

Driving on good ore is progressing from the 650 level with the ledge showing better ore than formerly. From the 100 level the crosscut is advancing to intersect the ore-bearing area from which much high-grade was mined four years ago. The company has decided not to exercise its option on the Rochester Merger and Edna Flinn properties, and will concentrate resources on more comprehensive developments of its own territory.

## REFINERIES IN ROCKIES SPRING UP OVER NIGHT.

Competition.

REFINERIES are springing up over night at various points in the Rocky Mountain regions. Older refineries are being enlarged. Companies are being financed for the purpose of floating still more refineries. The movement extends throughout the States of Wyoming, Colorado and Montana. The Rocky Mountain oil is practically all of the California type, but in time it will be refined in the States of the West. The Standard of Indiana and the Midwest have plants running at full capacity. The last issue of the Western Oil World, published by Denver by R. A. Hayden, formerly of Los Angeles, says that the Midwest plant is being enlarged, and that the company's tank farm is being increased to a capacity of more than 1,500,000 barrels. The Midwest has also acquired the refinery of the Greylake Refining Company, which recently was sold to the Consumers' Producing and Refining Company, which recently bought the equipment of the old Nacogdoches Refining Company, and shipped it to Greylake, has been absorbed by the Wyoming Refining Company, which will erect the plant at Greylake, and which also owns another and smaller refinery at Glenrock, Colo. The new refinery at Greylake will have a total capacity of 400,000 barrels per day. At Casper several refineries are in operation and others are projected. The building of refineries in Colorado and enlarged. This plant is making lubricants which are being tested by the government for use in the airplane service. At Beque a shale oil refinery is being built.

Carbon.

LOS ANGELES, Oct. 2.—Q: I am sending you a sample to you that I found in a pile near Alamos, Santa Barbara county. I could find no ledge of this rock in the area. I think that the sample is manganese. Will you please tell me what it is?

A: The sample is a variety of carbonaceous matter, and probably from the smelterstack of some manufacturing plant. Manganese absent.

Potash Trace.

GLENWOOD (Utah) Oct. 2.—Q: Will you send me with this letter for potash and oblige?

A: The sample probably comes from a potash deposit, but it is in such silicate form that it cannot be extracted by any process at the present time. Water-soluble potash from such rock is so slight as to make the material of no commercial value as a source of potash (K2O).

Orthoclase.

RIVERSIDE, Oct. 11.—Q: Will you please tell me through the usual Times column what kind of rock is shown by the four square samples enclosed?

A: Some authors refer to samples of these rocks as "microcline," "orthoclase," "perthite," etc. The samples are felspar (orthoclase) in oblique rhombic prisms.

Three Samples.

QUIJOTOA (Ariz.) Oct. 1.—Q: I am sending three samples of ore taken from a large vein near here. Please make qualitative analyses on them.

A: The three samples are of the same class. No. 1 is impure quartz with iron manganese oxides and silicates. Lime and copper traces. No. 2 carries traces of graphite; black mica, with lime (detrimental to the sample). No. 3 is on the order of No. 2. The red matter in the samples is chiefly hematite, and not "red copper ore."

A Thumb Specimen.

CORONA, Oct. 12.—Q: I inclose you a small sample of rock from the hills north of Corona. Is the white mineral molybdenite, or does it contain anything else of value? Thank you for any assistance in determining this mineral or its value.

A: The sample is comparatively smaller than a grain of coffee, and is in silicate form. Under the microscope, with the blowpipe and by wet methods, it is probable that what you take for molybdenite is but graphite; iron disulfide in the mass, and for this reason a definite analysis can not be given in the absence of a larger specimen.

Silicates and Oxides.

SAN BERNARDINO, Oct. 12.—Q: Please classify, test, and describe the three mineral samples sent herewith.

A: No. 1 consists of a lot of sand, and present in the quartzitic matter we find: one-third magnetite, blackish limonite, feldspar and trace of garnet. Platinum absent. No. 2 is the mineral actinolite. No. 3 silica, manganese dioxide, and iron oxides.

Strontium Trace.

JEROME (Ariz.) Oct. 12.—Q: Please tell me what samples contain strontium.

A: No. 1 is quartz with iron and aluminum silicate, and it is impure floatstone (a variety of quartz that has been water until the air-dried porous cavities causes the sample to sink to the bottom of container). No. 2 is lime carbonate, strontium sparingly present. No sample tested for gold, silver, or lead.

Sulphides and Silicates.

KINGMAN (Ariz.) Oct. 12.—Q: I am sending you by parcel post a sample of ore that every one has a different name for. Would you kindly test them and let me know what they are. There is a greasy white substance in one of the samples, and some authorities give me tungsten. Will you others call it "white molybdenum." It cannot be melted with the blowpipe.

A: Sample No. 1 is sulphide ore in quartzitic matrix, and arsenic is present. The sulphides in this rock are those of iron (pyrite), chiefly; galena, and trace of copper. No. 2 is in part galena; the ore on which the smelters "penalty" is levied is of galena. The blackish matter is of hornblende, with (other black) limonite; some "peacock iron," pyrite and arsenopyrite. Sample No. 3 "white rock." This is impure nagrite, and consists of microscopic scales, of a silvery white color, and radiate, and is soft; friable and unctuous, like soft tallow; adhering to the fingers in glimmering microscopic scales. Gives clayey odor when breathed upon, and in composition is anhydrous aluminum silicate. Scattered throughout the mass of this impure nagrite are silvery scales of mica, and some silvery (mica) muscovite, with lead molybdate sparingly, and two cubes of galena.

Lithium Absent.

CANTIL, Oct. 14.—Q: I am sending you some samples taken from a vein in the district of the West and marked with certain words. Please classify the samples and oblige.

A: Sample "Well" is of two rock varieties: one is of (greenish) chlorite gneiss (soft granite), and the other is a quartzitic gneiss carrying manganese (dendritic) coating with iron oxides present. The sample marked "Lithia 5 feet down"

## RARE MINERALS, METALLURGY, CHEMISTRY

In the Earth.

Asbestos Traces.

KINGMAN (Ariz.) Oct. 11.—Q: I am sending you some ore samples; please tell me what they are, and commercial values.

A: No. 1 is altered argonite, a variety of lime carbonate, and magnesite is present. No. 2 is lime carbonate with amphibole and trace of strontium. No asbestos in either sample.

Tin Absent.

MONO LAKE, Oct. 13.—Q: I am sending you under separate cover four samples. Does No. 1 (black) carry tin, and if not, what is it? No. 2 (yellow) is this tin sulphide? What does No. 3 contain? Any tungsten?

A: No. 1 is iron silicate carrying good percentage microscopical iron (pyrite). No. 2 "We hope this tin ore" the sample carries bright yellow pyrite and it is not tin sulphide ("bell metal ore"). No. 3 is (tetrahedral) amphibole present, and it should be assayed for copper, lead, zinc and silver. No. 4 is probably altered rhyolitic rock; assaying. No sample tested for gold. Tungsten absent.

Chiefly Blotite.

BURNETT (Tex.) Oct. 14.—Q: Kindly advise the character of the inclosed sample; what it is, and whether it has any commercial value. Oblige.

A: The quartzitic rock is probably from a narrow seam or fissure, or could be from a book of cleavable matter. The blackish substance, as coating, is chiefly blotite from the blow of a hammer, and trace of limonite, and a very few colors of microscopical pyrite (iron sulphide). The commercial value of such material is nominal.

Chiefly Bog Iron Ore.

FREDERICK (M.) Oct. 16.—Q: I am sending you today a sample of ore which I would appreciate your analysis thereon for me.

A: Among the publications of the United States Geological Survey is a reference to a clay carrying graphite, which burns white, and it is used for lining converters, etc. There are traces of this clay in the sample submitted by you, but it is not a market, with some hornblende furnace linings. Bog iron, with manganese present, and the sample is a bog iron ore.

Hard to Analyze.

GLENDALE, Oct. 15.—Q: I am here inclosing three samples of rock from the district of the Los Angeles Times what metal or mineral each contains. Nos. 1 and 2 are from well-defined veins. No. 3 is a "hard nut" to crack on qualitative analyses.

A: No. 1 is chiefly hematite (iron) in blackish crystals; graphite iron traces; lead traces, and this rock should be assayed for silver. No. 2 is in part like No. 1; copper and silver present and very slight traces of bismuth. No. 3 is chiefly calcite; very low percentage strontium.

Platinum Absent.

MORENO (Ariz.) Oct. 15.—Q: I know that the ore sample I am sending you carries gold and silver, but I do not know what the name of the bright mineral in the rock. I always get some of it in the sample.

A: The quartzitic rock is "mixed" with iron-manganese oxides. Lead (galena) sparingly present, and showing under the microscope. The bright particles are hematite (microscopic iron).

Doubtful Clay.

LOS ANGELES, Oct. 15.—Q: Will you kindly let me know what the inclosed sample is made of? It is used for lining converters, etc. for tiling, pottery or like uses? The hard, burnt substance is found around burnt stumps of trees in the clay bank, and red clay both come from same general bank and seem to alternate.

A: No. 1 is of a brown, micaceous and magnesian silicate; iron present. (The burnt substance is a shale carrying a good iron percentage). There is quartz and traces of fuller's earth in No. 1. No. 2 is aluminum silicate with quartz, and more or less mica, and some iron. No. 3 is a mass of iron present. It is doubtful if the samples are suitable for the purposes indicated owing to the high iron percentage.

Hornblende.

LOS ANGELES, Oct. 9.—Q: I am sending you a sample of ore for analysis, and both of them are from a locality due north of Baldy. M.

A: One of the samples is typical hornblende, and the other specimen is also hornblende carrying blotite (black mica), with lime (detrimental to the sample). This variety of hornblende is frequently confused with wolframite, but there is no tungsten acid present in either sample.

## BIG ORE SHIPMENTS

Management of Nevada Mines.

Out Big Tonnage of Ore. Grade Minimal.

(SPECIAL CORRESPONDENCE.)

LUNING (Nev.) Oct. 26.—

Shipment has started from the Luning mine to the Millers Canyon extraction of ore is proceeding rapidly from the Edith shaft, and other workings. The mine contains gold and silver, and around \$40 per ton. Several tons of shipping ore are being made at numerous points with increased energy. The mine intends to later provide a mill for treatment of its ore, but which a large tonnage has been blocked out of the \$30 per ton.

Leasing is becoming more active in the Luning district, and companies have thrown a net of ground to the system. The mine has been able to maintain its main levels. In the grade copper considerable tonnage has been exposed at points in the district.

Progressing.

TONOPAH MINES ARE REACHING VALUE.

BULLION SHIPMENTS IN GOOD RETURN.

The Extension Property. Material Gain Over Last Year. Rescue-Eula Is Valued by Who Has Made Heavy Reports.

(SPECIAL CORRESPONDENCE.)

TONOPAH (Nev.) Oct. 26.—

most notable event of the year has been the state of the Tonopah mine in the California district reached through the Tonopah mine where high-grade ore was entered in cross cut No. 113 from the 400 level to blast a portion of the big vein which has not previously been opened. Two weeks ago the foot wall reached after which it began to appear that the better vein was persistent as the face of the mine was advanced. This was proved to be only a delusory appearance, and the problem of the mine shot had been tried.

The clean up of the Tonopah mine for the past two weeks resulted in the production of thirty-one bars of bullion representing a value of \$14,000. The mine is treating a greater quantity of ore at any part of the year than in any previous period of its history. The mine's output for the week, the ore average 100 per ton. The reduced tonnage ascribed to the cleaning up of the mine is the highest grade of ore from previous operations without any attempt being made to sweeten them. This grade of ore had not been before.

With the issuance of the checks the Tonopah mine has a comparative quietus. The mine has steadily increasing its output for the three months ending Sept. 15, 1914, the company earned \$14,000 compared with \$14,500 for the corresponding period of the previous year. During the first half of the present year, the mine earned \$15,110, an average of \$15,110 per month. The mine's output for the month, the ore average 100 per ton. The mine's output for the month, the ore average 100 per ton.

The mine is still in doubt as to the real significance of the mine's output. The mine's output for the month, the ore average 100 per ton. The mine's output for the month, the ore average 100 per ton.

## QUARTER-MILLION TAKEN FROM MINES AT OATMAN.

(SPECIAL CORRESPONDENCE.)

OATMAN (Ariz.) Oct. 23.—

The two products, mines of the Oatman district should add \$250,000 worth of new gold to the world's store of the precious metal for the month of October. United Eastern production is holding up to the record of the past three months, and with one more day to work than in September, the total output should surpass in tonnage and fully equal in total value that of the preceding month.

Various stories have been published as to the amount of war taxes that the United Eastern Mining Company will be called upon to pay. Estimates as high as \$12,000 and as low as \$100,000 have been made, the former estimate having been published in New York. The United Eastern visited the property during the past week for the first time since the mill started. While here he made an examination of the Sunnyside and expressed the opinion that future exploration should be prosecuted at greater depth. No definite time has been fixed for commencing the work of sinking
